Rope

100% Polyester

Our products use taut, clean, and highly tenacious rope made of 100% polyester. What makes this material special is because the characteristic of polyester that is extremely strong, very durable: resistant to most chemicals, stretching and shrinking, wrinkle resistant, mildew, and abrasion-resistant. It is hydrophobic in nature and quick drying.

Polyester retains its shape and hence is good for making outdoor furniture for harsh climates. Polyester has the lowest stretch and best abrasion resistance, combined with excellent UV resistance. Easily washed and dried, polyester can be dry-cleaned with no hassles. It is suggested to use warm water and add fabric soap to the final rinse cycle.

Noted

Color samples are an indication only and do not replace the use of real samples when ordering, since it is impossible to guarantee a screen reproduction identical to the original. Colour quality depends on the device used to visualize the web site and can vary from device to device. Textures are sometimes zoomed to allow for a better visualization of the materials.
