WAVES

Stool

MONDO SKU
RIMO20-403-WAVES

OVERVIEW

A stool made from solid, scented cedar wood, crafted from a single block and distinguished by its unique wave-like design. The seat is smooth, while the sides retain a raw finish. Inspired by the shape of a sanitary fixture, it offers an innovative reinterpretation: the use of wood allows for soft, flowing undulations—an effect that would be impossible to achieve with ceramic, the material traditionally used for such fixtures.

Only natural cedar is suitable for outdoor use. Cedar contract finish and Vulcano cedar are for indoor use only.

Cedar wood information and care (PDF)
