

WHEN QUALITY MATTERS

HUNTING

Ikonick USA hunting rounds are engineered to do one thing: end the hunt cleanly. Our expanding designs and hollow point rounds transfer energy efficiently and expand reliably on impact, producing fast, humane terminal performance. Built with premium components manufactured at our facilities and strict quality control, each round delivers consistent accuracy and predictable expansion so you can trust your shots every time.

Our line of hunting ammo includes maximum expansion, controlled fracturing and fragmentation rounds.

Left to Right:

6.5 Creedmoor 130GR SC HPBT
.308 Win 115GR Rapid Expansion
.308 Win 175GR Max Expansion
.223 Rem 62GR SC HPBT
.300 Blackout 115GR Rapid Expansion
.300 Blackout 194GR Max Expansion
.300 Blackout 210GR Defense

LAW ENFORCEMENT

At Ikonick USA, we maintain single-digit standard deviation to ensure each shot behaves exactly as expected. Our training rounds are used by law enforcement agencies all over the Country and our armed forces around the world. Every cartridge reflects our unwavering commitment to precision, quality, and the people who rely on it most.

Every single round designed and manufactured for consistency and reliability, and we have the data to back it up.

Left to Right:

9mm Luger 124GR FMJ Comp Load

HOME DEFENSE

Keeping your family safe is everyone's first priority. Ikonick USA defense rounds are engineered for that purpose. Optimized for stopping power and controlled expansion to stop a threat quickly while reducing the risk of over-penetration. Each round provides consistent terminal performance and dependability when you need it most.

Our defensive rounds are held to the highest quality control standards. Built at tested at our facility in Stuart, Florida.

SHOOTING SPORTS

Ikonick USA has what you need, whether you're a beginner, a competative shooter, or anywhere in between. Our American-made rounds are engineered for consistent performance shot after shot, maintaining tight groupings and outstanding accuracy. Whether you're using our 9mm Comp-Load for reduced recoil in a match, or our 223 for rifle drills, you can count on us to deliver the highest quality in every round we produce.

When improvement is the goal, your ammo should never be a variable. Rely on us, and let your skills speak for themselves.
