COASTAL GREEN[®] CBD

NATURE'S RELIEF

WWW.COASTALGREENWELLNESS.COM

Coastal Green CBD

Coastal Green CBD was founded with one simple mission, to bring affordable Cannabis to the public while maintaining the highest standards possible. After years of research and development, we are now proud to offer a robust product line designed to fulfill consumers' evergrowing needs.

All Coastal Green CBD products are formulated with extracts derived from non-GMO hemp, grown with organic growing practices in the US. Fully lab tested at multiple stages, from the hemp plants through the finished goods, all to ensure our products are not only accurately labeled but also free of any possible contaminants.

Batch tracked QR codes are always supplied with every packaged product for full transparency to the consumer.

ABOUT US

In today's flooded CBD market, we know that having easy to convey standards, which clearly separates our products from the rest, is critical. So, we made sure to formulate our tinctures to do just that.

Clean and Consistent – Our Tinctures and ingredients are always lab tested at multiple stages. The plants and extracts are individually tested for potency and any possible contaminants. Then we test the final products to ensure accurate and clean dosing in every drop.

Real full spectrum with a 15% minor profile – We do not only want to ensure that our customers are capitalizing on the Entourage effect but also make sure that our tinctures stand out from the rest. So our tinctures will always have a minor cannabinoid profile of at least 15% compared to the CBD content. Meaning for every 100mg of CBD, our tinctures also have 15mg of minors, including CBN, THC, CBC, CBG, CBL, and CBT. A true full-spectrum product.

Packaging – Packaging is often overlooked, but we sourced patent pending leak proof dropper tops. Not only that but our droppers are tamper-evident and also graduated with markings at .25ml, .50ml, .75ml, and 1ml. These markings are not painted but etched onto the glass droppers to ensure no chemicals or metals will leach off into the products.

Ingredients – We keep it as simple as possible, with only two ingredients. Kosher and USDA Organic certified MCT oil with Kosher certified full-spectrum hemp extract. No fillers or flavors, ever.

| Retail | Wholesale - 5 count minimum | Distribution - more than \$7,000 total |

Nature's Way Pain Cream

Our Nature's Way Pain Cream is based on a family recipe used for any sort of muscle pain, inflammation, spasms, or soreness. Through our unique formula, we can capitalize on benefits from multiple sources, including essential oils, emu oil, and Cannabidiol. Each ingredient was thoughtfully selected and bringing exclusive benefits while being sourced as naturally as possible. Available in 1oz or 3.2 oz packaging and both original strength at 250mg per ounce and extra strength at 500mg per ounce.

| Retail | Wholesale 7 plus count | Distribution \$7,000 plus |

| Rose Oasis Massage Oil 3.5oz 700mg - \$40 | \$18 | 20% discount \$14.4 |
| Retail Margin | Average 60% | Average 68% |

Nature's Way Soothing Salve

Our Nature's Way Shooting Salve is also based on an old family recipe used for topical skin issues. Everything from bug bites and rashes to more chronic issues like psoriasis or eczema.

Formulated with beeswax and all-natural ingredients, it is designed to sit on top of the skin to help repair but is also non-greasy, so it will not stain fabrics.

Rich with not only CBD, naturally infused chickweed oil, Teatree oil, eucalyptus oil, and rosemary oil, our Soothing Salve is antiseptic, anti-inflammatory, and antibacterial. This makes it a perfect solution for any sort of irritation or itchiness of the skin.

Rose Oasis

Our Rose Oasis Massage oil was thoughtfully formulated with a soothing scent, making it appealing to all consumers and massage practitioners alike. This is an excellent product for at-home use or in a clinical setting.

Our proprietary essential oil blend in unison with the almond / MCT oil blend makes for a relaxing and soothing experience.

We source the best quality

Sustainable, SC produced raw and unfiltered wildflower honey. We then infuse it with our high-quality and lab-tested CBD distillate. This gives you the perfect way to sweeten your day while balancing your health.

- All of the health benefits of SC raw and unfiltered wildflower honey
- Honey makes a great fast-acting and efficient delivery method of our CBD
- 1,000mg total, 15mg per tsp
- 68 tsp total

Coastal Green CBD

1200mg gummies

Our vegan Coastal Green CBD 40mg Full Spectrum gummies are strong, effective, and great for overall health and wellness. Our gummies come in a 30 count bottle with 1200mg of Full Spectrum CBD in total. Not only are our gummies vegan, gluten-free, USDA organic, and delicious but they are infused with a proprietary method to ensure accurate dosing in every gummy.

Ingredients: Glucose syrup, sugar, pectin, citric acid, sodium citrate, natural flavoring, natural food coloring, Full Spectrum Hemp Extract.

Retail - \$64.99

Wholesale 5 count minimum - \$32

Distribution - more than \$7000 - 15% discount \$27.2

CBN tincture

Our Coastal Green 600mg CBN tincture is a powerful, natural sleep aid. CBN (Cannabinol) is a cannabinoid found in the flowering hemp plant that provides a heavy eyelid effect and is a great alternative to other drowsy supplements. Each tincture contains 600mg of CBN isolate, 100mg CBD, and blue dream terpenes to maximize the entourage effect.

Our CBN isolate is 99% pure and 3rd party tested at several stages.

We use USDA Organic Kosher Certified MCT oil.

We only use Abstrax Tech terpenes.

Ingredients: Organic Kosher MCT oil (Carrier Oil) CBN isolate, CBD isolate, natural terpenes.

Retail - \$59.99

Wholesale 5 count minimum - \$29

Distribution - more than \$7000 total - 15% discount \$24.65

White Label Program

At Coastal Green CBD, we acknowledge the importance that some businesses may emphasize on building their unique brand. Our white label program offers retailers and Distributors the opportunity to develop their brand without the enormous barriers to entry.

This allows you to efficiently bypass not only the cost of research and development, equipment, and raw materials but also labeling, lab testing, batch tracking, and countless other tasks.

- Quickly launch your brand without sacrificing quality.
- Easily scalable to any volume.
- Industry-leading quick turnaround times
- Low minimum orders compared to most white-label offerings.

White Label - \$1,500 minimum per product or \$6,000 total

| Retail | White Label \$1,500 - \$4,999 | White Label \$8,000 plus |
|--|----------------------------------|-----------------------------|
