Crescent Wiss® 12" Straight Pattern Tinner Snips

★★★★★ (0)

Ships Same Day

Product Description

HVAC and sheet metal pros agree when making long, straight cuts in thinner-gauge sheet metal, tinner snips are the way to go. They're a simple, economical, and durable cutting solution for many sheet metal and HVAC applications. New Crescent Wiss® lightweight aluminum and drop-forged steel tinner snips are the most durable we've ever made with precision ground cutting edges and an adjustable pivot bolt. Available in a wide selection of styles and sizes, there's a perfect Crescent Wiss® snip for every job.

Features:

- Hot drop-forged steel blades provide market-leading strength, durability, and excellent cutting performance over tool life
- Precision-ground cutting edges provide superior cutting quality & reduced cutting effort through optimized blade geometry
- Through broached bolt allows for market-leading cycle cut life - yielding greater than 3X the ASME specification
- High durometer grips for superior comfort, control, and overall product durability
- Torque control handle rings provide superior comfort, fit, and are sized to accommodate hands with or without gloves
- Touch point ergonomics optimize hand and finger contact points in handles to maximize fit, control, and user ergonomics

Specifications

Weights & Dimensions
