Global Industrial™ Flared Channel Wire Decking, 48"D x 46"W, 2500 Lb. Capacity

★★★★★ (0)

Ships within 1 Business Day

Product Description

Flared channel decking is a waterfall design used on boxes or structural beams. Ready Deck™ decking is strong, safe and reliable and simply drops into place for easy installation. Improves performance of sprinkler systems, increasing fire safety. It is self-cleaning and maintenance free, and will provide years of durable use. Will accommodate most structural beams found in the industry today.
