Global Industrial™ Plastic Floor Guard, 7'L, Yellow

★★★★★ (0)

Ships Same Day

Product Description

✓ Protects against impact from forklifts, pallet jacks, & other low-profile machinery
✓ ANSI I 9-7 compliant with a 20,000-joule impact rating and 24" load deflection
✓ Flexible, self-healing design reduces the need for costly replacements

The 7'L Global Industrial™ Flexible Floor Guard is your solution to protecting equipment and structures from damage caused by low-profile machinery such as pallet trucks and forklifts. Made from durable plastic resin, this highly flexible, self-healing safety curb is designed to recover quickly after impact and is able to stop up to 9,000 lbs. at 7 mph. It has a flat rubber

base that bolts easily to the ground with the included hardware and can be used as a standalone unit or installed under an existing guard rail. Featuring a bright yellow safety finish for visibility, this unit is an ideal addition to any warehouse or facility. Limited 2-Year Warranty.

- Compatible with the Global Industrial™ Plastic Guard Rails
- Simple install for immediate use
- Fits within the base of plastic guard rails for extra protection
- For indoor or outdoor use
- UV & freeze-resistant (-94°F-158°F)
- Flame-resistant rating: UL94 V2
