Product Description

Proto® Black Chrome Combination Reversible Ratcheting Wrench 11 mm - Spline

- Metric Spline wrenches can be used on metric 4, 6, 12 point, spline and Torx® fasteners.
- The chrome-vanadium switch lever allows for easy changes in turning direction which helps improve speed.
- 15° angled offset box end helps keep shank clear of obstructions.
- Chrome-vanadium box ends and switch levers provide high strength and durability.
- Box end is countersunk for easy application to the fastener.

- Spline design was created for use with specialty spline bolts which are used when weight and size of bolt heads must be minimized.
- Spline design enables the wrench to contact conventional fasteners away from the corners, which applies force over a larger area, reducing risk of fastener scoring and helps prevent rounding of the corners and other fasteners damage that could lead to Foreign Object Damage (FOD).
- The high contact surface area which is away from fastener points enables turning of highly rounded fasteners.
- Anti-Slip Design (ASD) open end.
- Black chrome finish is corrosion resistant and visually distinctive.

Specifications

Weights & Dimensions

Length	6-9/16 in
Size	11 MM
Opening Size	11MM in

Product Details

Type	Combination Wrench
Measuring System	Metric (MM)
Color	Black
Opening Type	Open/Box
Socket/Wrench Points	12
Impact Approved	No
Flip Switch Reversible	Yes
Material	Alloy steel
Description	Black Chrome Combination Reversible Ratcheting Wrench 11mm - Spline
Ratcheting	Yes

Manufacturers Part Number	JSCVM11
Brand	Proto
