Product Description

PCCS Cooling Pack Replacement For PC1, Set of 2

Features:

- Avoid downtime by keeping extra sets of PCP1 Cooling Packs charging and ready to replace into PC1 PCCS Phase 1 Vests. PCP1 Cooling Packs set of 2 are included with PC1 Vest and sold separately. Unlike ice and gel vests, PCCS Cooling Packs maintain 65 Fahrenheit/18 Celsius and can be worn directly against body without the discomfort of brutish cold or risk of frostbite. And, unlike water and air cool vests, there are no tethers for potential breakdowns during critical operations. Cooling Packs slip easily into PC1 Vests. Rechargeable thousands of times. Safe, non-toxic, non-carcinogenic, not harmful if accidentally ingested. Casings are ergonomically modular for comfort, flexibility and portability, with virgin urethane seals able to withstand up to 8,500 PSI to prevent leakage.
