Global Industrial™ Semi-Automatic Stretch Wrap Machine with NTEP Component Scale

★★★★★ (0)

Ships within 1 Business Day

Product Description

✓ 59" rotating turntable for quick, easy & secure wrapping
✓ 1 manual & 5 programmable automatic operating modes
✓ Built-in scale & label printer improves efficiency & productivity

Eliminate worker strain with this Global Industrial™ Semi-Automatic Stretch Wrap Machine. This model is outfitted with a built-in NTEP scale and label printer that improves productivity

& efficiency by wrapping, weighing, and labeling pallets simultaneously. The machine is made with a sturdy steel housing, it is durable and wraps pallets & packaging tightly without damage. For commonly-used wrapping needs, like many pallets of the same product & size, the system accepts up to five user-programmed automatic wrapping modes using an array of parameters, that save time & further improve productivity. Built-in close loop self-adjusting technology ensures each package is wrapped evenly & securely and an object detection switch automatically stops operation for safety. A pallet height detection photo eye sensor allows the operator to walk away and return with a wrapped pallet. Additional features such as user-friendly controls and forklift pockets for easy maneuverability, make this the ideal wrapping machine for warehouses, shipping, and distribution centers. ETL/cETL Certified. Limited 1-Year Warranty.

- Only use 20" clear/translucent stretch film
- 22 - 4400 lb weight capacity
- Emergency stop button stops the machine immediately
- Up to 13 rpm rotation speed
- 83" max wrap height
- 52" x 52" x 82" max load size
- Accepts rolls with 3" cores & max 10" diameter
- Touchscreen, programmable logic controller (PLC) user interface
- Features a tension knob that allows 150% post stretch
- Optional loading ramp available separately
