Product Description

GLOBAL™ STACKABLE ACID CORROSIVE CABINETS
Global™ Manual Close Door – 6 Gallon Capacity
Compact chemical storage cabinet is designed to easily stack on top of other safety cabinets for increased storage capacity. Compact safety cabinet is easily placed on counter tops or on top of other safety cabinets. Made using all welded, double walled 18 gauge steel for superior strength. Cabinet doors are made with 18 gauge interior and 14 gauge exterior

for increased strength and fire protection. Double walled steel features 1-1/2" insulating air space.

Chemical safety cabinet meets or exceeds the NFPA Flammable Liquid Storage Code #30 and the OSHA standard for storage of class I, II and III liquids. Dual 2" flame arrestor air vents can connect to an exhaust system to maintain safe temperatures. Safety storage cabinet includes a built-in grounding connector and adjustable rubber capped leveling feet. Doors feature a self latching mechanism that engages 3-point locking without handle rotation. Highly visible trilingual warning sign on door helps warn personnel about possible danger. Heavy duty 4" hinges with sturdy brass pins provide extra security. Flush, paddle handle prevents accidental catching or banging. Hazardous chemical storage cabinet has a 2" leak proof door sill and a polyethylene tray liner to contain leaks. Safety cabinet has a blue powder coat finish and radius edges for safety. Manual Close Door will not close automatically. **10 Year Limited Warranty.**
