SWAPPABLE POWER STATIONS

With a focus on convenience, flexibility, and sustainability, Global Swappable Power Stations builds easily interchangeable energy modules – giving you uninterrupted power whether you are in a warehouse or medical environment.

KEY BENEFITS:

- LED Screen indicating individual battery percentage
- Ergonomic handle for ease of removal
- Wall mount bracket for additional install option
- Exceeding industry-standard outlet counts
- Higher capacity vs. competitors
- Hot Swappability for uninterrupted power supply
- Built-in BMS Protection
- Certifications: UL1564, UL1012 and IEC 60601-1

SPECIFICATIONS:

Power System	812548 Single Dock Station	812546 Dual Dock Station
Run Time:	up to 16 hrs depending on the actual devices used	
Votage:	110VS/60Hz	
Battery Bank	691Wh	1,382Wh
Continuous Output Power:	500W	
Surge Power:	1,000W	
Dimensions & Weight:	10.23 x 10.55 x 10.47 inch; 9.19 lbs	18.89 x 10.55 x 10.47 inch; 13.33 lbs
Charging System	**812547** Single Charging Station	**812545** Dual Charging Station
Approximate Charge Time:	2h	
Dimensions & Weight:	10.23 x 10.55 x 10.47 inch; 9.19 lbs	18.89 x 10.55 x 10.47 inch; 15.18 lbs
Battery Pack	**812554** Lithium Iron Phosphate Battery	
Battery Capacity:	691Wh	
Battery Lifecycles:	3,000	
Dimensions & Weight:	7 3/4 x 14 5/8 x 4 11/16 inch; 15.87 lbs
