Product Description

Boltless Wide Span Storage Rack with Wire Decking
Provides extra space for bulky materials. Boltless assembly with snap together components requires no nuts, bolts, clips or tools. Wire decking allows ventilation, visibility and light penetration. Sprinkler water passes throughout racks easily, improving fire safety and lowering insurance premiums. Sturdy wire construction includes 3" square mesh openings. Uprights are a substantial 1-1/2" x 1-1/2" x 14 gauge steel. All models have double riveted horizontal beams for maximum frame rigidity. Unit includes 3 shelves, adjustable at 1-1/2"

increments. Heavy-duty roll-formed steel framing with chip resistant Gray baked enamel finish. This 96"W model with 1100 lb. capacity per shelf includes Heavy Duty C-channel beams and 3 center deck supports per shelf.

Each level consists of (2) pieces of 48" x 24" decks to save on shipping costs.
