Product Description

ALUMINUM DIAMOND DECK PLATFORM TRUCK

Maximum strength, lightweight deck makes this the perfect choice for moving bulk product. All-welded 10 gauge aluminum deck with a 7 gauge aluminum channel frame ensures long life and resists corrosion. Slip-resistant diamond tread deck surface has more grip cleats per square foot than competitive trucks, helping to prevent items from falling during transport.

Non-marring integral corner bumpers protect walls. Newly designed offset ergonomic aluminum push handle helps reduce fatigue and increases maneuverability. Reinforced corner sockets on both ends allows use of additional push handle (sold separately). Rolls smoothly on 2 swivel, 2 rigid roller bearing wheels.

Specifications
