CLEARANCE

Flat Socket Cap Screw - 4-40 x 3/8" - Steel Alloy - Thermal Black Oxide - FT - UNC, Pack of 100

★★★★★ (0)

Ships Same Day

Product Description

Cap Screws are designed to go through a hole or nut that is pre-tapped to form a mating thread for that screw. Flat head screws are used when protrusion of the fastener above the mating surface is unacceptable. Allen/Hex Keys are used to drive the screw.

Specifications

Weights & Dimensions

Length	3/8 in
Size	#4-40
Head	Flat Socket
Thread	Coarse in
Unit of Measurement	Inch (Imperial)

Product Details

Drive Type	Allen
