Product Description

ALUMINUM DIAMOND DECK PLATFORM TRUCK

Maximum strength, lightweight deck makes this the perfect choice for moving bulk product. All-welded 10 gauge aluminum deck with a 7 gauge aluminum channel frame ensures long life and resists corrosion. Slip-resistant diamond tread deck surface has more grip cleats per square foot than competitive trucks, helping to prevent items from falling during transport. **Non-marring integral corner bumpers protect walls.** Newly designed offset ergonomic

aluminum push handle helps reduce fatigue and increases maneuverability. Reinforced corner sockets on both ends allows use of additional push handle (sold separately). Rolls smoothly on 2 swivel, 2 rigid roller bearing wheels.
