Product Description

Global Industrial® GP50 Portable Gasoline Water Pump 2" Intake/Outlet 7HP

Designed for high pressure water pumping only, the GP50 water pump is powered by a United Power –UP170 gasoline Engine. Pump features a 2" intake and discharge connection. 7 horse power, maximum flow of 158GPM. Engine driven pump is non-submersible and comes equip with a low oil sensor light that will automatically shut off the

engine when the oil level is below operating standards. GP50 comes mounted on a rigid frame that prevents damage and provides an easy tie down option for transportation.
