Ships within 1 Business Day

Product Description

The Nexel® modular ice maker produces up to 350 lbs. of ice per day with a 230 lb. capacity storage bin that is ideal for commercial kitchens, bars, restaurants, and more. This 304 stainless steel construction provides durability to a unit that is low-maintenance and easy to clean with a self-clean system. Machine is versatile and reliable to produce high-quality, crystal clear, full size ice cubes. Flip up stay lid with LED light and automatic shut-off feature activates when unit bin is full. Adjustable legs with sturdy feet allow for height control to accommodate uneven floors. Ice scoop included. This durable, standalone machine runs

on a standard household electrical current and is energy star, ETL & ETL-Sanitation approved for commercial use. 3 Year Limited Warranty.

Installation Requirement: Global Pure Filtration system must be installed with a building PRV set to no higher than 80 PSI and an inline Global Industrial Water Pressure Regulator & Filter Protection Valve #270334.
