Model: WBB3125302

Adrian's Safety Solutions Modular Safety Netting For 120" Bay, J Hook Attachment, 4.20 lbs., Black

★★★★★ (0)

Ships within 1 Business Day

Product Description

You can safeguard your inventory, walkways, and work areas with modular pallet rack safety netting by preventing loose objects from falling out of your storage bays. Because the Modular Safety Netting was created to allow for the overlapping or "shingling" of numerous nets, you can quickly and effectively protect any space right out of the box. The J-hook attachment fits structural and RediRack upright styles. Each net attaches at the four corners with standard attachment style that fits teardrop or slotted upright styles. Optional Add-On Anchor Attachments are available:
