Global Industrial Folding Wire Container, 48"L x 40"W x 36-1/2"H, 3000 lb. Capacity, Gray

★★★★½ (2)

Ships Same Day

Product Description

✓ 30.4 cu. ft. capacity & supports up to 3000 lbs
✓ Reinforced steel wire with powder coat finish
✓ Stackable when open & folds flat to save space

Store & transport bulk parts, inventory, materials, and more with the 30.4 cu. ft. capacity Global Industrial™ Folding Wire Container. It is made of heavy-gauge steel wire mesh with a channel formed base frame to give it a maximum weight capacity of 3000-pounds and the

ability to safely stack up to four high. The mesh has a corrosion-resistant gray powder coat finish to provide protection & to lengthen the container's service life. Utilizing wire mesh provides excellent visibility & easy inventory control while allowing sprinkler water penetration in the event of a fire.

For easier loading & unloading, there is a full-length, 14" tall drop gate that allows workers to reach to the bottom with integrated latches that secure it closed. Notched, positive stacking feet rasise the base off the floor 6-inches to permit handling by forklift or pallet truck and provide a secure & stable connection when containers are stacked. Its collapsible design allows it to be set-up in seconds without tools and folds flat to save space & return shipping costs. No assembly required. Limited 1-Year Warranty.

- Overall dimensions measure 48"L x 40"W x 36-1/2"H
- Strong & durable 4-gauge wire sides and 2-gauge wire base
- Wire-reinforced hinge & double-reinforced wire mesh for durability
- Factory-installed plates accept optional casters for easier mobility
- Optional accessories include: casters, hinged wire lid to add security, & a nylon dust cover
