ELECTRIC PALLET JACK

3,300 LB. CAP., 27" X 48" FORKS BY GLOBAL INDUSTRIAL™

Increase productivity and reduce the risk of workplace injuries with the Global Industrial™ Electric Pallet Jack.

Constructed from heavy-duty steel with a durable powder coat finish, this unit combines safety, a long battery life, and consistent power output to quickly move large quantities of palletized goods at consistently faster speeds. Engineered with efficiency in mind, this machine moves at a max speed of 2.7 mph when loaded to help improve inventory management, stock organization, and loading/unloading trucks.

For added safety and efficiency, this pallet jack is powered by a rechargeable lithium iron phosphate (LiFePO4) battery. This compact, lightweight battery is non-toxic, non-contaminating, built to withstand extreme weather conditions, and has a longer lifecycle than other batteries. It has an excellent discharge rate and remains cool at high temperatures, allowing this jack to be used in a variety of commercial and industrial settings.

HIGHLIGHTS

- ✓ Rechargeable LiFePO4 battery for three hours of continuous operation
- ✓ Override brake allows you to manually move the jack
- ✓ Includes (1) charger & (1) battery

KEY FEATURES INCLUDE:

BUILT FOR VERSATILITY
Ideal for use in warehouses, manufacturing plants, distribution centers, retail stores, loading docks, & more

HEAVY-DUTY PERFORMANCE
Easily transport up to 3,300 lbs. of palletized goods throughout your warehouse or facility

SUPERIOR MANEUVERABILITY
Featuring a 57° turning radius, this jack easily maneuvers around tight corners and spaces

Ergonomic Features Reduce Fatigue

Toe Guard

Emergency Stop Button

Durable Steel Construction

WEIGHT & DIMENSIONS

Fork Length	48"
Fork Width	6"
Overall Height	48"
Overall Length	64"
Width	27"
Distance Between Forks	15"
Distance Across Forks	27"
Fork Raised Height	7-11/16"
Fork Lowered Height	3"
Weight	309 lbs.

PRODUCT DETAILS

Assembly Required	No
Material	Steel
Type	Self-Propelled
Style	Standard Forks
Color	Yellow
Battery	Lithium Iron 24V/20AH
Wheel Type	2 Load, 2 Steer
Capacity	3,300 lbs.
Duty Cycle Per Charge	3 Hours
Travel Speed	2.7 MPH
Certifications	cETL
Manufacturer's Warranty	Limited 1-Year
