Product Description

This sealless strapping tool eliminates need for seals to help save time and money. The strapping tool can be used for horizontal and vertical strapping of pallets, boxes, cartons and more. This steel strapping tool utilizes punch joint sealing to increase holding efficiency. This strapping tool includes sealing and cutting depth adjustments. It includes tools to set width to accept strapping either 1/2", 5/8" or 3/4" wide.
