Global Industrial™ Aluminum LED Light Kit For Workbenches, 96"W

★★★★☆ (2)

Ships within 1 Business Day

Product Description

This light kit provides direct overhead lighting to brighten any work surface where additional lighting is needed. The light fixture hangs from cantilever brackets (included) using adjustable cord plungers. The cantilever brackets are height adjustable on upright kit (sold separately) at 2" increments. The light unit is height adjustable while on brackets using depressor plungers. The reflector and base are constructed of aluminum. The cover is made of clear thermoplastic and helps protect lamps from damage. Includes two 35W 50,000 hr.,

non-replaceable led lights. Units are 4375 lumens, 120V. Certification: UL/cUL. Upright kit required.
