Heatstar Analog Thermostat W/ Cable, 32'L, Black

★★★★★ (0)

Ships within 1 Business Day

Product Description

This analog thermostat allows convenient, long distance temperature control for indirect-fired forced air kerosene heaters in commercial and residential applications. The heavy duty silicone jacketed thermostat wire improves impact resistance in harsh working conditions. The impact resistant case and coil sensor protector provide an added layer of protection against falls and work area damage. Includes a 32' cable for long distance user access and operation control. Features an operating temperature range of 24 - 95°F with an accuracy of +/- 5°F. Black color finish. The product has a limited warranty of 1 year. cULus and CSA

listed. Dimensions are 10-5/8"L x 7"W x 5-3/4"H.
