Ships within 1 Business Day

Product Description

Interion® By Global Industrial Raceway partitions create private offices and cubicles with built-in power options for computers and other electric equipment. Raceways provide convenient access for data cables & electrical wiring to keep office spaces clean and clear of visible wires. Electric and non-electric panels can be connected together to only place power where you need it. Panel is flame retardant to meet California 117 flammability standard. 1-3/4" thick fabric upholstered panels feature an interior engineered wood (MDF) frame and honeycomb core covered with heavy tackable liner for structural strength. 4"H

Black powder coated steel raceways include UL listed modular electric components (cables & receptacles) and cable management openings for phone & data cables. Removable raceway covers allow easy wiring access. Panels with Electric raceways include built-in double-sided power box with four circuit 1 receptacles and modular cables. Each power box can accept up to 6 receptacles; maximum 3 per side (additional **Receptacles** sold separately). Use included blanks to cover unused openings. 60-1/4"W Electric Panel includes two double-sided power boxes. Includes adjustable leveling feet for uneven surfaces. 1 Year Limited Warranty.

Note: These panels do not include cable connection to a power source, which are sold separately. For hardwire installation, please see models 249054 (72") or 249055 (144"). For plug in installation , please see model 249066.
