Global Industrial™ Tricycle with Wire Basket, 24" Wheels, Blue

★★★★★ (0)

Available on or around 12/07/2026

Product Description

✓ Three-wheel with wide rear axle design provides superior balance under load
✓ Reinforced steel frame stands up to daily industrial use
✓ Pneumatic tires ensure smooth riding over varying ground surfaces

This Global Industrial™ Tricycle with Wire Basket is your solution to transporting materials across distribution centers, manufacturing facilities, and other industrial spaces.

Constructed from reinforced steel with a durable powder coat finish, this tricycle is built to withstand daily use and is resistant to rust, chips, and corrosion. The 24" pneumatic tires ensure a smooth ride over concrete, asphalt, and uneven surfaces, while the wide rear axle design increases stability for enhanced operator safety. Ideal for order picking, maintenance rounds, and more, this unit features a compact turning radius for maneuvering tight aisles, an ergonomic upright handlebar, a bell, and an open wire basket for high-capacity storage.

- Adjustable padded seat
- Easily maneuvers tight aisles and congested warehouse environments
- Low-maintenance mechanical components
- Increased stability reduces tip risk under heavy loads
