SWAPPABLE POWER STATIONS

With a focus on convenience, flexibility, and sustainability, Global Swappable Power Stations builds easily interchangeable energy modules – giving you uninterrupted power whether you are in a warehouse or medical environment.

KEY BENEFITS:

- LED Screen indicating individual battery percentage
- Ergonomic handle for ease of removal
- Wall mount bracket for additional install option
- Exceeding industry-standard outlet counts
- Higher capacity vs. competitors
- Hot Swappability for uninterrupted power supply
- Built-in BMS Protection
- Certifications: UL1564, UL1012 and IEC 60601-1

SPECIFICATIONS:

Power System	**812548** Single Dock Station	**812546** Dual Dock Station
Run Time:	up to 16 hrs depending on the actual devices used	
Votage:	110VS/60Hz	
Battery Bank	480Wh	960Wh
Continuous Output Power:	500W	
Surge Power:	1,000W	
Dimensions & Weight:	10.23 x 9.44 x 9.25 inch; 20.28 lbs	18.89 x 9.44 x 9.25 inch; 39.24 lbs
Charging System	**812547** Single Charging Station	**812545** Dual Charging Station
Approximate Charge Time:	2h	
Dimensions & Weight:	10.23*9.44*9.25 inch; 21.60 lbs	18.89*9.44*9.25 inch; 40.78 lbs
Battery Pack	**812549** Lithium Iron Phosphate Battery	
Battery Capacity:	480Wh	
Battery Lifecycles:	3,000	
Dimensions & Weight:	7.7 x 13.5 x 3.5 inch; 12.1 lbs
