Global Industrial™ Portable Stack Rack, 48"W x 42"D x 56.8"H

★★★★★ (0)

Ships within 1 Business Day

Product Description

✓ 4000 lb weight capacity
✓ Base with 4 removeable stacking posts
✓ Durable steel with blue enamel finish

The 48"W X 42"D x 56.8"H Global Industrial™ Portable Stack Rack eliminates the need to permanently install storage solutions and provides a convenient, economical alternative to

pallet racks. This forkliftable storage rack can hold stacked stock & boxes and equipment, carry pallets or used as a pallet itself. The stack rack is made with 10-gauge 1-1/4" x 2-1/4" tubular steel with a 4000 lb. load capacity and the four removeable posts help stabilize loads, provide points for straps, and allow stacking up to 4 units high. When stacked, storage racks help eliminate load-on-load contact that causes product-crushing damage found on standard pallet racks.

- 48" clearance from top of base to top of posts
- 4-way forklift access for portability
- Feet raise rack 4-1/2" and fit into posts for stacking
- Blue enamel finish protects steel from corrosion
- Posts snap into sockets on base, no tools required
