Say Goodbye to Your Golf Car's Boring Factory Dash

- · Give your golf car a new look by replacing its boring factory dash with a custom golf car dash.
- · We offer a variety of custom dashes including dashes with cut outs for radios and speakers for most popular E-Z-Go, Club Car and Yamaha golf car models.
- Dashes are available in a variety of finishes including Carbon Fiber, Woodgrain, Textured Black and Paintable ABS. (Not all finishes available for all models.)
- · Most dashes include mounting hardware and locking glove compartments with keys.
- Dash accessories including Cover Plates, Dash Legs, Dash Pockets, Replacement Dash Cups and Dash Inserts also available.
- See pages 126-130 for our complete selection of custom dashes and dash accessories or contact us for more information.

Kenda Hole-in-One Mounted on Beige Steel Wheel TIR-301

How to Read Wheel Offsets

Wheel offset is the measured distance between the hub mounting surface and the center line of the rim.

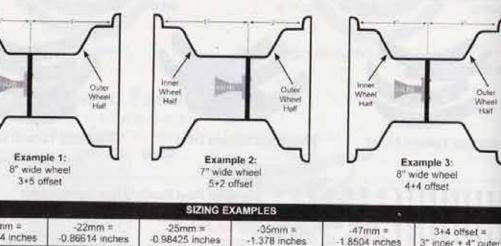

Wheels are usually stamped with their offset using the German prefix "ET", meaning "Empresstiefe" or, literally, "press depth". This number is typically given in Millimeters (mm). An example would be "ET45" for a 45mm offset.

The offset can also be given in inches and is typically expressed with numbers like "3+4". The first number refers to the distance from the inner wheel half to the hub mounting surface while the second number refers to the distance from the hub mounting surface to the outside wheel half

A positive offset occurs when the hub mounting surface is on the street side (the side you see) of the center line of the rim. When the hub mounting surface is "centered" within the rim, it is known as a zero offset.

If the hub mounting surface is on the brake side of the center line of the rim, it is considered a negative offset or "deep dish"

Below are some examples of how to read offsets:

Super Saver LED Light Kits

Super Saver LED Light Kits

- · High quality, basic LED light kits that will improve the look of your golf car without taking a big bite out of your budget!
- · Long lasting, energy efficient LED lights feature a life of up to 50,000 hours and energy use of 25% compared to traditional halogen bulbs.
- · 12 volt operation for gas or electric golf cars. Voltage reducer recommended (see pg. 119).
- · Kits include high quality, easy to install wire hamess with push/pull switch.
- · Templates and installation instructions included.
- · Super Saver LED Light Kits are not compatible with Plug and Play Accessories.

Super Saver Clear Factory Style Light Kit, LED Bulbs, E-Z-Go RXV 16+, 12V

Super Saver Clear Factory Style Light Kit, LED Bulbs, E-Z-Go RXV 08-15, 12V LGT-360LC

Super Saver Adjustable Light Kit. LED Bulbs, E-Z-Go TXT 96-13, 12V

Super Saver Light Bar Kit, Clear Lens, LED Bulbs, E-Z-Go TXT 94-13, 12V

Why Switch to LED Lights?

- · Solid state LED lighting is both energy efficient and long lasting.
- LED design focuses light in a specific direction for better illumination.
- Unlike halogen lights which go out when the filament breaks, LED lights can last up to 50,000 hours.
- Because they contain no glass components, LED lights are not vulnerable to vibration or breakage like halogen bulbs
- Instant on and improved performance in cold temperatures.

Motors and Controllers

DC Controllers from Alltrax and Navitas

Top of the line controllers from the leaders in golf car technology and performance.

Alltrax Series Controllers

- The next evolution of the Alltrax Series Controller line.
- Combines ease of installation with the best power and performance in the industry.
- Series wound controllers for E-Z-Go, Club Car, Yamaha and Star vehicles.
- With native OEM connectors, USB programming port & more.

Alltrax XCT Controllers

- Regen wound controllers for E-Z-Go DCS, E-Z-Go PDS, E-Z-Go TXT 48 Volt, Club Car IQ, Club Car i2, Club Car PD Plus, Yamaha G19, Yamaha G22 and Yamaha Drive.
- Available in 300, 400 and 500 Amp models.
- With native OEM connectors, USB programming port & more.

Navitas DC Controllers

- Shunt wound/series controllers with Bluetooth connectivity via iOS and Android apps.
- Available in 440 and 600 Amp models for E-Z-Go, Club Car, Yamaha and Star vehicles.
- · Compact and lightweight,
- Bluetooth apps allow vehicle lockout, real time data, live diagnostics & more.

Contact us for the right controller for your specific application.

Admiral Motors

Series and Regen motors providing more torque and higher speed than the leading motor.

- Available for E-Z-Go, Club Car and Yamaha Series and Regenerative (Regen) golf cars.
- Compatible with OEM, Alltrax and Navitas controllers.

Admiral

Contact us for the right motor for your specific application.

Requires upgraded controller, †G22/G19 compatible with MOT-D2H Hamess (sold separately). E-Z-Go Long Stack, 48V TXT (Regen) – MOT-B4

Battery Chargers

Know Your Charger Plug

Be sure to order the right charger with the right charger plug for your application.

Eagle Performance Series Battery Charger

- Auto Ranging Voltage.
- · Battery chargers with interchangeable plug-in connectors (see below).
- · Ergonomic handle is optimally placed for easy lifting and carrying.
- Durable 7' long charging cables.
- Delta Volt Intuitive Charging Technology consistently and safely recharges batteries to a true 100% state.
- · Fully repairable in the field.
- Longer run times and extended battery life.
- Completely portable unit.
- Impact and scratch resistant top with scratch resistant powder coated aluminum bottom.
- · Made in the USA.

Requires OBC Bypass.

Lester Battery Chargers (§) AUTO VOLTAGE DETECTION

Lester Summit Series II High Frequency Battery Chargers - 22-25 Amps with 24-48V Multi-Voltage Range

- 1050W high-efficiency, high reliability charger designed for off-board and on-board use.
- · Features intelligent natural convection cooling (no fan) and high energy efficiency.
- · High AC-to-DC conversion efficiency.
- · Advanced Winter Storage Mode
- · Heavy duty, sealed aluminum enclosure is resistant to water, dust and other environmental elements.
- · Precise charging algorithms prevent both undercharging and overcharging
- · Universal AC input for use anywhere in the world.
- Bluetooth Smart wireless communications lets users view charge cycle status, select active charge profile, upload new charger profiles and download charger cycle history records. (Apple iOS or Android phone/tablet with apps required.)

Admiral Battery Chargers

- · Durable and waterproof on- and off-board battery chargers for golf cars, utility vehicles and industrial
- · Designed for all types of lead-acid batteries.
- · Choose from high frequency and high amp models.
- · Wide-range input voltages from 100-230VAC, 50-60Hz
- Winter storage mode
- Fully sealed enclosure.
- Protected from reverse polarity, short circuit and overheating
- Designed for rugged environments and rated up to IP65.
- · Mounting holes allow for safe installation on shop shelf, wall or bulkhead.

Starter Generators

Admiral

- Engineered to meet or exceed OEM specifications.
- Advanced manufacturing technique provides longer service life.
- · Computer tested for consistent quality.
- High reliability and unsurpassed performance.
- 12 volts, 20 amps.
- · Part of the Admiral line of quality golf car equipment.

Starter Generator, E-Z-Go RXV, Starter Generator, E-Z-Go TXT 10+, Kawasaki Motor Only OEM: 625715; 660379.

4 Cycle Gas 91+, Not for Kawasaki Motor OEM: 27065G01; 612028; 617120.

MOT-2003 270.00

Starter Generator, E-Z-Go 2 Cycle Gas 80-94 OEM: 16511G1: 16874G1. MOT-2002 270.00

Starter Generator, Club Car 4 Cycle Gas 97-13, Clockwise Rotation, Kawasaki Motor Only (Non-Subaru)

OEM: 1018337-01; 1036785-02.

Starter Generator, Club Car Gas 84-96.5, Counterclockwise Rotation (Non-Subaru)

OEM: Can also be wired for clockwise rotation (Precedent and DS 97+), OEM: 1012316, 1018294-01, 1018294-99; 1018337-01.

Starter Generator, Yamaha 4 Cycle Gas Drive2, Drive (G29), G16-G22

OEM: JN6-H1100-00; JN6-H1100-01; JN6-H1100-02; JN6-H1100-04-00.

Starter Generator, Yamaha 4 Cycle Gas G2-G14

OEM: J38-81100-10: J38-81100-11.

Industrial Starter Generators, Brush Sets

Admiral

- · Direct fit replacement for your vehicle.
- · Reengineered for extended durability and longer life.
- · Lower operating temperature = Less wear.
- · Larger brushes improve performance.
- · 12 volts, 22 amp rating.
- · Every unit is triple tested and computer checked to ensure quality and performance.
- · Part of the Admiral line of quality golf car equipment.

Starter Generator, Club Car 4 Cycle Gas 97-13, Clockwise Rotation, Kawasaki Motor Only (Non-Subaru)

OEM. 1018337-01; 1036785-02.

*A resistor spark plug is required for proper operation with these ignitors. Failure to use a resistor spark plug may prevent a vehicle from starting, causing rough idling, misfiring, backfiring and abnormal combustion. The failure to use a resistor spark plug may also cause damage to this ignitor and will void warranty on this unit.

On land or over water, take the party to the next level with sounds and lights! The next generation Bazooka Party Bars are the ultimate in all-in-one entertainment. They have Bluetooth 4.0, an all-new Class D integrated amplifier, auxiliary input, optional dashboard controller, waterproof USB input charging, a full featured Bazooka mobile app, and Audio Sync technology that lets you wirelessly connect two G2 Party Bars to one mobile device.

Features:

Item#

- 8 True marine-grade speakers with end loaded woofers and front firing tweeters
- 450W peak power integrated amplifier with easy pair integrated Bluetooth and auto connect
- · Waterproof 3.5mm auxiliary inputs so you can connect to any smart device or mp3 player with a 3.5mm audio jack
- Waterproof 3.5mm auxiliary outputs easily pass the signal from the party bar to any other audio system or external
- Patent-pending cast aluminum integrated grill mounting system that allows for end mounted woofers and complete 360-degree rotation
- 2 durable cast aluminum legs for securing to the roll bar
- · Integrated rail mounting system provides alternative mounting options when end mounting isn't available
- Hands-free calling when you pair with your Bluetooth-enabled phone
- Marine-grade SAE accessory connector switch for easily adding any LED light bar
- Fully customizable wireless remote control, dashboard controller or mobile app control of all
- Audio sync wirelessly syncs music between two Party Bars (Bluetooth only)
- Integrated RGB LED Illumination System with many colors, flash patterns and speeds at the touch of your fingertips

MadJax Stretch Kits

MADJAX.

MadJax Stretch Kits are a complete solution to increase the length and carrying capacity of your vehicle. These kits provide all necessary components to stretch a standard model vehicle to carry up to six passengers with the addition of a MadJax or GTW rear flip seat (sold separately).

Features:

- Complete bolt-on kit with harness; no welding required
- Includes additional front seat frame
- Carry up to six passengers with additional rear seat kit
- Kit does not include seat cushions or extended canopy

LIFT KITS

CLUB CAR

Machined from a single piece of billet aluminum, the MadJax Lo-Pro Lift Kit lifts the front end enough to mount 12" wheels with low-profile tires without risking the tires rubbing the body or fender wells or making the front end too high. Comes with all necessary hardware and full-color installation instructions.

Made in the USA, Hand-Crafted for Excellence

Jake's™ is one of the most popular and trusted brands in the PTV space, known for the American craftsmanship used to make their lift kits, Jake's products are proudly made in the U.S.A at Nivel's Manufacturing Center in Cairo, GA.

Jake's products are over-engineered for extended life. Using precision welding techniques, our lift kits are engineered with widened stance for safety. Jake's is the only lift kit brand to offer a disc brake option. All of Jake's components are designed to integrate seamlessly onto popular golf car makes and models for a custom look and simple installation.

Made in the USA

Jake's products are built in our Nivel Manufacturing center in Cairo, GA. These durable lift kits are engineered with a widened stance for safety and are the only brand to offer a disc brake option.

DC voltage converter/reducers provide a 12V source from your battery pack to run all of your accessories. Connects to entire battery pack instead of just one or two batteries, which improves the life of the batteries. No more having to install separate buss bars to split power. Installing accessories is as simple as crimp and go.

CONVERTERS/REDUCERS

Item # 13-030 Reliance 36V/48V-12V Voltage Reducer/Converter (Universal Fit) \$180.95

Specifications:

- Works with 48-volt and 36-volt applications
- Powder-coated aluminum housing with heat dissipating design
- Includes wiring pigtail for installation
- 30 amp output allows multiple accessories to be connected and powered at the same time
- · Will work on all 12-volt accessories such as Headlights & Taillights, Radios & Fans

TIRES & WHEELS

Golf cart tires and wheels can be a confusing product to shop for – with so many variations and styles to choose from, how do you figure out what's right for you? Our Tire & Wheel Fitment Guide is here to make choosing tires and wheels easy.

Tire Sizing

Most tire sizes are in the following format: 25x10-14. The first number, 25, is the full diameter of the tire – how tall it is in inches from top to bottom. The second number, 10, indicates how many inches wide it is. The last number, 14, is the size of the center of the tire – in other words, what size wheel will fit the tire. Therefore, an 25x10-14 tire is 25" tall, 10" wide, and can fit a 14" wheel. Another size format you may encounter is the automotive format, which looks like 225/30-14. In this case, the first number, 225, is the tread width in millimeters. The second number, 30, is the aspect ratio (30 = % ratio to tread width), and the third number, 14, is the size of wheel it can fit in inches.

Diagram example for 25x10x14

Diagram example for 225/30-14

TIRE TREAD CLASSIFICATION

Street / Golf Course

Offers the smoothest ride on pavement, and is a popular choice for turf applications.

All Terrain

Handles light off-road duty when needed, while also providing a good ride quality on pavement.

Agriculture & Off-Road

Aggressive tread blocks provide the ultimate off-road performance on muddy or rocky terrain.

Golf carts with over 18" diameter wheels should be lifted to fit the cart properly. Lifted carts will have wheels with a negative offset that allows for better turn radius and stability. This means that the tires will stick out from the wheel well. To prevent mud and dirt from flinging up from the tires, we recommend adding on fender flares.

TIRES & WHEELS

GTW 14" NOMAD TIRE

Introducing the newest addition to the GTW tire lineup. The GTW Nomad is a true all-terrain tire with great performance and wear regardless of your terrain. It offers an optimal tread pattern with integrated sipes for excellent grip and reduced road noise. The aggressive side-wall pattern improves traction and corner stiffness. It also features large shoulder blocks that are scalloped to eject water & debris and is DOT approved Steel Belted Radial. Whether you're riding loose sand, hard pack, mud, or just riding around the neighborhood, the GTW Nomad gives you the freedom to roam.

Features:

- DOT approved Steel Belted Radial
- · Aggressive all-terrain design
- Large, scalloped side blocks for increased rigidity and grip
- Asymmetric tread for improved contact and reduced road noise
- · Great for all driving conditions and weather
- Strong rubber compound for great durability and impact resistance

SIDEWALL AND SIDE BLOCKS

Large scalloped side for increased rigidity and grip. Robust sidewall tread for impact protections as well as loose terrain.

IMPROVED TREAD

Asymmetric tread for improved contact and reduced road noise.

INTEGRATED SIPES

Integrated sipes throughout tread for improved traction in wet conditions.

TOPS

84" & 120" VERSA TRIPLE TRACK TOP

This new ABS top is designed for maximum strength and durability with a lower profile to provide additional overhead clearance. Our new design reduces the previous top height by 2-1/2", providing extra clearance for lifted vehicles through garage doors and low clearance openings. The ABS construction provides additional strength & resistance to heat.

The Low-Profile Top comes equipped with our aluminum Triple Track system for easy installation of our enclosures and other available track accessories.

Features:

TOPS

- New 2-1/2" Lower Profile Height
- Durable & UV Protected ABS plastic resists the elements
- Structured design prevents sagging and warping
- Rain channeling to shed water away from occupants
- Includes industry exclusive aluminum Triple-Track for easy enclosure and accessory integration
- 84" length for 4-passenger & 120" length for 6-passenger vehicle coverage.
- · Struts and mounting brackets sold separately
- Uses current Triple-Track mounting kits
- Replace part number(s) for 84": 26-103 (Black) 26-104 (Beige) 26-105 (White)

WINDSHIELDS

NIVEL WINDSHIELD STYLES AVAILABLE

Nivel windshields have been produced in America since 1993. Our high-quality windshields are made in our Manufacturing Center of Excellence in Cairo, GA. Each folding windshield is assembled using a patented adhesive process for the continuous hinge. We box every windshield individually for damage-free shipping with protective film applied to both sides. All mounting hardware is provided in the false bottom of each box. Some versions are available with a foam rubber trim gasket to seal to your cart's cowl. Also available are windblockers and air dams to help effectively eliminate wind drafts from above the windshield.

Acrylic

These cost effective windshields are constructed using 0.168" nominal thickness OPTIX Acrylic

1/4" Acrylic

Same as the standard acrylic, however cut using 0.220" thicker material, for a more robust windshield.

1/4" Tampa G Acrylic

Similar to the thicker 1/4", but incorporates a Black Hinge that mechanically fastens using plastic rivets.

Vented 1/4" Tampa G Acrylic

These have an adjustable vent feature that allows air to flow while the windshield is in the up position.

Winged 1/4 Acrylic

The winglets provide more protection and coverage by extending beyond the frame width. In addition, this feature increases the windshield rigidity.

Impact Modified

Made of impact modified acrylic with a higher resistance to shatter then regular acrylic. It's nominal thickness 0.177 "OPTIX Impact Modified Acrylic

AS4/AS5

These meet US D.O.T requirements, Most "Street Legal" and LSV (Low Speed Vehicles) specify these. They are only available in flat one-piece configurations. Identified by the certified stamping – lower left corner. It's nominal thickness 0.177" Polycarbonate Hard Coat.

VENTED WINDSHIELDS

Who likes rain in their face when driving? Our flexible design allows you to protect yourself from the elements while getting some fresh air with our adjustable air vents. Each vent on this windshield is adjustable and tightens with a locking thumb screw, allowing you control of how much airflow is coming into the cart. Then on those hot days, you can fold down the windshield for maximum ventilation.

Specifications:

- High-quality 1/4" thick acrylic
- Snug, vibration-free fit
- Rubber trim at the bottom
- · Left and right vents for additional airflow
- Installation hardware included

Tinted Hinged		MSRP
09-010	Club Car Precedent 2004 & Up	\$266.95
09-007	E-Z-GO RXV 2008 & Up	\$303.95
