

OVERVIEW

Our Garden Hose Timer makes it possible to water the yard without the waste. Set the timer to water early in the morning during times of least evaporation and when it doesn't interfere with a schedule. Setting the timer prevents over-watering. The timer will automatically shut off when it has completed the watering cycle. It is constructed of a durable plastic housing and includes a brass connector. Ideal for watering the lawn, garden and micro-watering hanging baskets and potted plants.

5-Year Limited Warranty

AM Conservation® guarantees to the original purchaser or recipient of a spray valve that it is free from defects in material and workmanship for a period of 5 years. AM Conservation® will at our choice replace any part of the spray valve which is in our opinion defective provided that the product has not been abused, misused, altered, or damaged after its purchase. This includes damage due to the use of tools or harsh chemicals. In the event a product has been discontinued, AM Conservation® will replace it with what we determine to be the closest product. AM Conservation® is not responsible for labor charges, installation, or other consequential cost. AM Conservation®'s responsibility shall not exceed the original cost of the product.
