

OVERVIEW

Our bi-metal refrigerator/freezer thermometer accurately displays temperature in both Fahrenheit and Celsius. This thermometer includes a magnetic and adhesive backing for different mounting and placement options. Adjusting refrigerator and freezer temperatures to the recommended settings saves energy and improves refrigerator/freezer efficiency by up to 8%. The optimal refrigerator temperature range for food safety is 36°F to 40°F; the freezer should be set to zero.

KEY FEATURES

- Bi-metallic sensing element for reliable readings
- Dual display: Fahrenheit °F / Celsius °C
- Adhesive and magnetic backing for easy installation
