

Faucet Aerator Adapters

OVERVIEW

Niagara Conservation's Faucet Aerator Adapters offer a simple, affordable way to make high-efficiency aerators compatible with nearly any faucet type. By converting non-standard or small threads to standard male or female sizes, these adapters enable easy integration of water- and energy-saving aerators into diverse residential or commercial plumbing setups.

FEATURES

- **Supports Water and Energy Savings**
Enables the use of high-efficiency aerators that reduce flow rates, lowering both water consumption and the energy needed for heating.
- **Universal Thread Compatibility**
Converts small or non-standard faucet threads to fit standard male-thread aerators—compatible with major brands like Kohler and Pfister.
- **Durable Chrome-Plated Brass Construction**
Built to last, each adapter resists corrosion and wear, ensuring long-term performance even in demanding environments.
