

LED Adjustable Vapor-Tight

L30/50-VP4-35/50-120/277V-D-ADJ

OVERVIEW

Simply Conserve®'s LED Adjustable Vapor-Tight fixture is designed for versatility and durability in demanding environments. Integrated field-adjustable switches allow installers to easily set both wattage and color temperature on-site, improving installation flexibility. Built with a rugged, sealed housing, this fixture is ideal for locations where moisture, dust, dirt, and other contaminants are present. Its IP66 rating enables safe, washdown cleaning making it a reliable lighting solution for wet and industrial applications.

FEATURES

- **Field-Adjustable Performance**
Integrated switches allow on-site adjustment of lumen output and color temperature.
- **Built for Demanding Environments**
The durable vapor-tight construction and IP66 wet-location rating protect against moisture and airborne debris, ensuring long-term performance in harsh conditions.
- **Long-Lasting Efficiency**
With an L70 rated lifetime of 50,000 hours and high efficacy performance, this fixture delivers reliable illumination while minimizing maintenance and energy costs.
- **Installation Flexibility**
Designed for both retrofit and new construction projects, the fixture includes mounting hardware for straightforward installation across a wide range of applications.
- **Dimming and Control Ready**
0-10V dimming capability provides smooth, consistent light control, supporting energy savings and occupant comfort.
- **Wide and Reliable Light Distribution**
A 120° beam angle ensures uniform illumination, while a wide operating temperature range allows dependable performance in both cold and warm environments.
