

V-SEAL

Nail-On PVC Kerf Channel Door Set

DS060N-B
DS060N-W
DS060W-B
DS060W-W

OVERVIEW

Our Nail-On PVC Kerf Channel Door Set is the ideal solution for keeping the elements out, maintaining a cozy indoor environment, and lowering your bills. Designed to retain its shape year after year and remain flexible at temperatures down to -40°F, the unit's V-seal meets ASTM, BSI, DIN, and ISO standards. The set's cellular polyvinyl chloride (PVC) carrier is easy to cut and resists water, rot, warping, and splintering—making it a durable and lasting alternative to wood. Pre-cut tops ensure a uniform fit to speed installation and improve air sealing effectiveness. The Door Set is available in both wide and narrow configurations and white or brown colorways. It can also be painted to match any door.

FEATURES

- **Retains Shape and Flexibility**
V-Seal gasket remains pliable down to -40°F and retains its shape year after year.
- **Long-Lasting Durability**
PVC carrier resists water, rot, warping, and splintering—making it a superior alternative to wood.
- **Efficient Air-Sealing**
Pre-cut tops guarantee a uniform fit, enhancing the speed of installation and ensuring excellent air-sealing to keep homes comfortable for years to come.
- **Nail-Up Installation**
No screws needed; simply nail it up (nails not included).
