

Professional Aluminum Channel Screw-On Door Set

WS051

WS061

OVERVIEW

Our premium-grade weatherstripping combines a durable, long-lasting aluminum carrier with either a bulb-shaped, silicone or TPV sealing gasket. Spanning gaps up to 3/8", it provides protective sealing against drafts and the outdoors while improving your comfort, saving energy, and lowering bills. Its compression attributes and material composition are highly effective at sealing irregular door surfaces and work well at extremely low temperatures. This door set's innovative Dual Seal Technology™, combined with its slotted mounting adjustability, ensure fast and effective installation for passing blower door tests and is a perfect solution for weatherstripping standard doors.

FEATURES

• Weathertight Sealing Gasket

- Bulb geometry provides a highly effective compression seal
- Ideal for installation on irregular door surfaces and gap widths
- Spans door gaps up to 3/8"
- Pliable TPV or silicone construction that won't crack, shrink, or become brittle or stiff
- Remains pliable in subzero temperatures

• Robust Aluminum Construction

Carrier's extruded aluminum durability and compact profile deliver tough, long-lasting weatherization

• Dual Seal Technology™

Bulb-shaped door gasket with back-of-carrier extension provides enhanced air sealing and on-door stability for improved performance and longevity

• Blower Door Test Effective

Dual Seal Technology, notched sides, and post mounting adjustability for passing blower door tests with ease

• Fast & Adaptable Mounting

Included hardware (screws), slotted mounting adjustability, and caulk-free installation

• Color and Sizing

Available in a neutral gray to match most doors; 84" sides with 36" top

• Save Energy & Lower Bills For Years To Come
