

## OVERVIEW

Our solar charging power bank can recharge your phone or mobile device on the go. The power bank can either charge your devices using the built-in li-polymer battery, which can store energy when it's not in use, or, by placing it in sunlight for emergency situations. Ideal for power outages, camping, hiking, traveling or other outdoor activities.

Once the power bank is charged, it's ready to use for mobile devices such as phones, tablets, watches, mp3 players, etc. It also includes 1 USB port and a Micro USB port for charging the power bank with an electrical outlet. These solar power banks are customizable with your company or program's logo. Minimum order of 5,000 pieces for logo engraving.
