OVERVIEW

Experience the ultimate shower upgrade with the ShowerStart® Multifunction Showerhead! This innovative fixture is designed to save water and energy without compromising comfort. Featuring an integrated ShowerStart® TSV³ (Thermostatic Shower Valve), it prevents hot water waste during warm-up by automatically reducing the flow to a trickle once the water reaches 95°F. Enjoy a personalized shower experience with three spray patterns: full body, massage, and pause. The 50 rub-clean, anti-clog spray nozzles and pressure compensated flows ensure consistent, high-pressure sprays, even in homes with lower water pressures. Upgrade your shower and save on utility bills with the ShowerStart® Multifunction Showerhead.

FEATURES

- **Warm Up Waste Savings**
Effortlessly saves the water and energy at the start of every shower.
- **Warm-Up Freedom**
Multi-task (shave, brush teeth, go about your morning routine) while waiting for hot water to arrive without water and energy waste.
- **Hot Shower Standby**
Stops empty showers from running on-and-on by auto-pausing flow when hot water arrives (95°F)
- **Efficient Showering**
WaterSense certified to provide great feeling, comfortable sprays and additional water and energy savings while showering.
- **High Pressure, Anti-Clog Sprays**
50 rub-clean nozzle spray face featuring full-body, massage, and pause settings

|----------------|--------|-------|-------|-----------|-----------|
| EV3024, EV3025 | 12.60" | 9.84" | 4.92" | 24 | 13.5 lb |

TECHNICAL NOTES

The ShowerStart® Multifunction Showerhead is not an anti-scald device:

- Lower water heater to a maximum of 120° F (49° C).
- Always resume water flow and check water temperature before entering the shower.

Tankless systems require a minimum flow rate to produce hot water. When this product is used with some tankless systems a brief, yet noticeable, change in the shower's temperature may occur shortly after resuming the shower's normal flow.

3-YEAR LIMITED WARRANTY

AM Conservation warrants that this product is free from defects in material and workmanship for a period of 3 years from the date of the first purchase or the original distribution of the product under an energy conservation program, subject to the proper installation and/or use of the product.
