

Soap & Soak® Showerhead Pause Valve

N3110

OVERVIEW

The Soap & Soak® Showerhead Pause Valve from Niagara Conservation is a convenient yet powerful addition to any shower system, designed to help conserve water and energy without sacrificing comfort. This innovative device connects easily to most standard showerheads and allows users to temporarily reduce water flow to a trickle—ideal for lathering, shaving, or shampooing. Its patented design offers an efficient solution for everyday convenience and savings.

FEATURES

- Universal Compatibility**
Attaches to standard showerheads for broad application across residential and commercial settings.
- Water-Saving Functionality**
Patented Soap & Soak® valve reduces water flow to approximately half of the showerhead's normal output, conserving water and energy while lathering, shampooing, or shaving.
- Quick Installation**
Installs easily without tools, making it a convenient upgrade for any existing shower setup.
