Why Choose AM Conservation?

Achieve Your Goals with Us

AM Conservation is your trusted resource for energy- and water-efficient products. From smart thermostats to LED light bulbs, showerheads, faucet aerators and advanced powerstrips, our products leverage innovative technology to maximize savings. We guarantee quality with product certifications from ENERGY STAR®, DLC and WaterSense®.

As a manufacturer and distributor with over 30 years of merchandising, online product sales, program implementation and logistics experience in the energy and water efficiency industry, we are uniquely qualified to provide reliable products and services.

30+

Experience

We have been in business for more than 30 years, which means we've got the experience and market expertise to achieve your unique goals.

Fast & Safe Delivery

Our industry-leading logistics network follows extensive best practices, including maintaining ample inventory on-hand, to fulfill orders in a seamless and timely manner.

Reliable Pricing

Our manufacturer-direct product pricing builds value for your business and your customers.

Top-Level Support

We provide concierge-level customer service with after-sale support.

Efficient Products

We offer products that are custom-engineered and hand-picked to provide superior performance at an accessible price point.

Premium Products & Services

AM Conservation's robust product line is ideal for a variety of clients, including utilities, municipalities, program implementers, contractors, distributors, retailers, non-profit agencies and more.

Rapid & Reliable Fulfillment

We ship directly from our warehouse to your job site or store.

Unparalleled Value

Our unique, competitively priced product mix builds value for your business and your customers.

Discount Opportunities

We offer the ability to order in bulk, saving time and providing cost savings to both you and your customers.

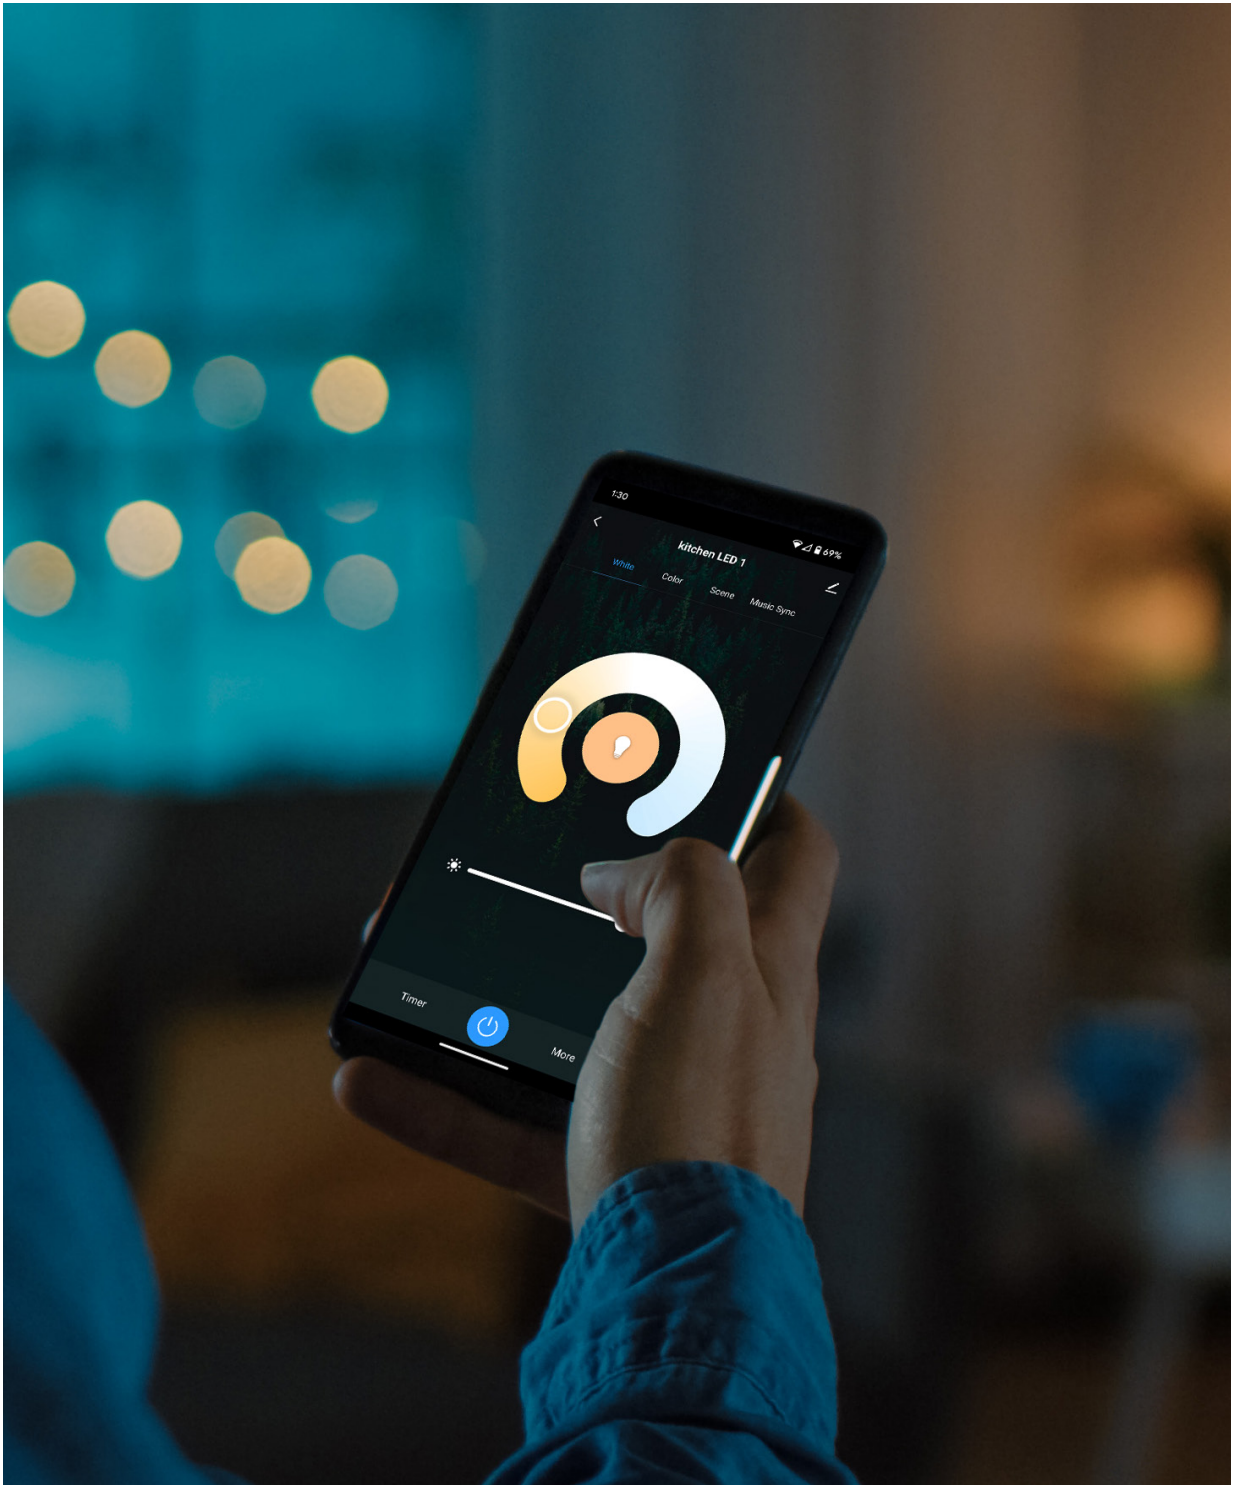

Smart Home Products

Stay Connected and In Control

Wi-Fi and voice-compatible solutions allow your customers to adjust their home devices from anywhere for true smart control.

Smart Lighting

SIMPLY CONSERVE®

Simply Conserve® Smart LED Lamps

Illuminate a world of possibilities with your smart home bulbs. Change brightness and color based on your daily activity. Bring them to life by naming, grouping and sharing your smart bulbs. With the touch of a finger or the ease of voice control, you can monitor and adjust your lights from anywhere.

Google Nest Smart Thermostat

The Nest Thermostat can turn itself down to save energy when you leave the house. You can control it from anywhere with the Google Home app—whether you're on an errand or on vacation. You can even change the temperature without getting off the couch or out of bed. Just say, "Hey Google, turn up the heat."* The Nest Thermostat looks out for your heating or cooling system. If something doesn't seem right, it can send an alert.

Smart Home Partner Brands

Stay connected and
in control.

Adjust from anywhere
for smart control.

In addition to our own offerings, we deliver smart home devices from a variety of well-known partner brands.

Smart products provide greater control of energy usage, benefiting both the user and the energy service provider. Easy automation of temperature settings, the ability to remotely turn an appliance on or off,

and the capability to sync products with a user's schedule are just some of the ways to boost energy efficiency.

Many of our smart home devices also provide insights into energy use, which can help consumers become more mindful of their habits and encourage them to conserve energy.

Home Accessories

Meet Your Customers' Residential Needs

AM Conservation offers easy-to-install, durable home safety monitoring, hardware and accessories to improve resident wellbeing.

Power Strips

SIMPLY CONSERVE®

Simply Conserve® 7-Outlet Advanced Power Strip

The Simply Conserve advanced power strip (APS) allows users to reduce excess energy usage and trim utility bills by intelligently cutting off power to connected devices while they're not in use, eliminating phantom and standby power losses without ever unplugging the equipment. Load-sensing technology detects the current being drawn through the Master Outlet, which is plugged into a primary device like your TV or desktop computer. Then, peripheral devices like game consoles, DVD players or monitors are plugged into the Switched Outlets, which only become energized when a high current is detected in the Master Outlet, indicating the TV or desktop computer is powered on. Always-On Outlets provide power at all times, so they can be used for devices that need power constantly, like modems and cable boxes.

Power Strip Partner Brands

The logo for Embertec, featuring the word "ember" in a light green color and "tec" in a dark grey color, with a registered trademark symbol (®) to the upper right of "tec".

embertec®

Embertec

Embertec is a leading energy efficiency technologies company. They specialize in power-saving products for the consumer electronics and appliances market, utilizing a unique microprocessor-controlled chip and supporting platform technology.

The logo for TrickleStar, featuring the word "TrickleStar" in a dark grey color and a green circular icon composed of many small dots to the right of the word.

TrickleStar®

TrickleStar

TrickleStar manufactures affordable, simple and easy-to-use products, which help everyday people reduce energy consumption in their homes and workplaces.

Power Banks

Solar Charging Power Bank **CUSTOMIZABLE** 

Our solar charging power bank can recharge your phone or mobile device on the go. It stores energy in a li-polymer battery, which can be charged via USB cord or sunlight. Ideal for power outages, camping, hiking, traveling or other outdoor activities.

Once the power bank is charged, it's ready to use for mobile devices such as phones, tablets, watches and mp3 players. It also includes a USB port and a Micro USB port for charging the power bank with an electrical outlet. These solar charging power banks are customizable with your logo. Minimum order of 5,000 pieces for logo engraving.

Smoke and CO Detectors

Carbon Monoxide Detector Alarm

Our carbon monoxide detector alarm features advanced electrochemical CO-sensing technology, allowing it to detect carbon monoxide through its working electrode. This CO detector has a 10-year CO sensor/end-of-life signal and is powered by a 9V alkaline battery (CO250B) with an option for a 5-year lithium battery version.

MODEL NUMBER	DESCRIPTION	CASE QTY.
CO250B	9V Alkaline Battery Operated	6
CO250LB	Lithium Battery Operated	6

Basic Smoke Detector Alarm

Our basic smoke alarm has ionization smoke-sensing technology, making it more responsive to flaming fires. This smoke alarm is RV-approved and is powered by a 9V alkaline battery (FG250B) with an option for a lithium battery version.

MODEL NUMBER	DESCRIPTION	CASE QTY.
FG250B	9V Alkaline Battery Operated	6
FG250LB	Lithium Battery Operated	6

Combination Smoke, Fire & Carbon Monoxide Detector Alarm

Our combination smoke detector, fire alarm & carbon monoxide detector features advanced electrochemical CO and ionization smoke-sensing technology, making it more responsive to flaming fires. This combination detector has a 10-year sensor/end-of-life signal and is powered by a 9V alkaline battery.

MODEL NUMBER	DESCRIPTION	CASE QTY.
SC02B	9V Alkaline Battery Operated	12

Tapes and Brushes

Aluminum Foil-Coated Duct Tape

Our aluminum foil coated duct tape is coated with an acrylic pressure-sensitive adhesive and applies easily to both fibrous and sheet metal ducts on flat and irregular surfaces. This tape excels in demanding temperature applications and other environments. It is UL listed and meets requirements of UL181A-P and UL181B-FX.

MODEL NUMBER	DIMENSIONS	CASE QTY.
1581A-3-CS	3" x 180'	16

SIMPLY CONSERVE®

Simply Conserve® Coil Cleaning Brush

Our coil cleaning brush has a unique tapered design that enables the efficient cleaning of refrigerator, air conditioner and dehumidifier coils, where dust easily collects reducing efficiency and wasting energy. This brush features a sturdy, extended reach handle.

MODEL NUMBER	CASE QTY.
971130-I	250

2" Mastic Brush

Our 2" mastic brush is manufactured with natural bristles and a wooden handle, which makes it ideal for applying mastic and adhesives to all types of substrates. It is reusable and can be cleaned repeatedly or disposed of when the job is finished. This brush is also ideal for cleaning coils and for dusting off parts, equipment and ductwork. It can be used with solvent-type parts cleaners.

Thermometers

Wall Plate Thermometer **CUSTOMIZABLE** 

This wall plate thermometer readily replaces existing wall plates, installs in minutes, and needs no wiring. The LCD display accurately displays temperatures to within 1°F. The switch plate thermometer is UL approved and has an easy-access battery, which is included. This wall plate thermometer may be personalized with corporate name, logo or program theme.

MODEL NUMBER	CASE QTY.
PP-12100	216

Bi-Metal Refrigerator/Freezer Thermometer

Our bi-metal refrigerator/freezer thermometer accurately displays temperature. This thermometer includes a magnetic and adhesive backing for different mounting and placement options. Adjusting refrigerator and freezer temperatures to the recommended settings saves energy and improves refrigerator/freezer efficiency by up to 8%. The optimal refrigerator temperature range for food safety is 36°F to 40°F; the freezer should be set to zero.

MODEL NUMBER	CASE QTY.
AMC111	400

Digital Thermometer

Our digital thermometer has an easy-to-read digital display screen that accurately shows Fahrenheit temperatures between -17°F and 150°F. The suction cup allows you to place the thermometer anywhere. Batteries are included.
