SIMPLY**CONSERVE**®

WINDOW
INSULATING KIT

WK64210EF, WK6242EF

OVERVIEW

Eliminate condensation, cold drafts, and heat loss. A hair dryer shrinks the window insulator film to form a smooth, tight, and transparent barrier against the weather. Double-sided tape securely holds the plastic film in place. The film lasts 15 months and completely breaks down in 24 months to help reduce the effect of single-use plastics.
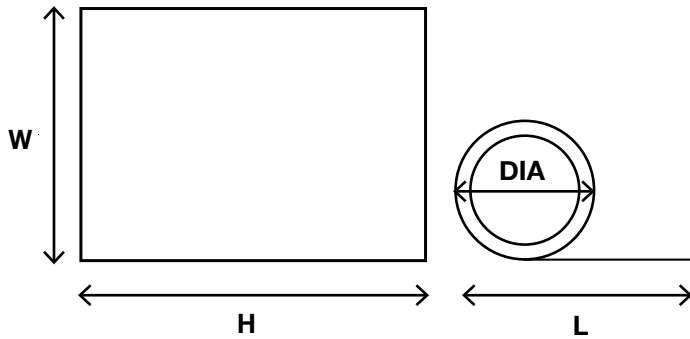

KEY FEATURES

- Seals out cold air
- Prevents condensation
- Crystal clear shrink film
- No special tools needed
- Helps save on heating and cooling costs
- Environmentally friendly
