

## Fair Skin

The Fair Skin collection from Janssen Cosmetics is designed to reduce the appearance of unevenly pigmented skin. Products in this line combat brown and red flecks and inhibit new discolorations, resulting in flawless, bright, even skin.

**Vitamin C** inhibits melanin maturation

**Morus Alba (white mulberry) extract** inhibits tyrosinase, an enzyme that helps produce melanin

**Fruit Acids** remove dead skin cells revealing brighter skin

**SORR** is our highly concentrated antioxidant plant extract complex that helps prevent spots and promotes radiant skin

**UV filters** including organic UV filters and titanium dioxide

## Basic Protocol

1. Cleanse	Melafadin Cleansing Powder	This gentle cleansing powder contains vitamin C to begin the skin brightening process. It leaves skin refreshed and ready to absorb subsequent products. Pour a quarter size amount of powder into your palm and mix with water to create a creamy foam. Massage over face and rinse with water.
2. Exfoliate	Brightening Exfoliator	The Brightening Exfoliator combines physical granules with fruit acids to remove old skin cells and stimulate new growth. Twice a week, apply to skin after cleansing and massage gently. Rinse with water.
3. Tone	Melafadin Toner	Plant extracts in the Melafadin Toner prevents the formations of dark flecks on the skin, while glycerin and aloe soothe and moisturize. Stroke gently over face with a cotton pad. Alternatively, pour into hands and press gently over the face.
4. Moisturize	Melafadin Day Protection	This day cream contains skin-brightening actives and SPF 20 to brighten and protect skin. Sun protection is vital when you are using a brightening regimen, as skin becomes more sensitive to UV. Apply to face and neck in the morning and massage in gently.

	Brightening Night Restore	Melanin-inhibiting plant extracts block the formation of dark spots and encourage regeneration of fresh skin. Apply onto face and neck in the evening after cleansing and toning, and massage in gently.

### Advanced Protocol

1. Cleanse	Melafadin Cleansing Powder	This gentle cleansing powder contains vitamin C to begin the skin brightening process. It leaves skin refreshed and ready to absorb subsequent products. Pour a quarter size amount of powder into your palm and mix with water to create a creamy foam. Massage over face and rinse with water.
2. Exfoliate	Brightening Exfoliator	The Brightening Exfoliator combines physical granules with fruit acids to remove old skin cells and stimulate new growth. Twice a week, apply to skin after cleansing and massage gently. Rinse with water.
3. Tone	Melafadin Toner	Plant extracts in the Melafadin Toner prevent the formations of dark flecks on the skin, while glycerin and aloe soothe and moisturize. Stroke gently over face with a cotton pad. Alternatively, pour into hands and press gently over the face.
4. Mask	Brightening Mask	Highly active substances including licorice root and lipoamino acid brighten skin quickly in this concentrated mask. A few times a week, apply to cleansed skin and leave on for 10-20 minutes. Remove with warm moist cloths.

5. Treat	2-Phase Melafadin Concentrate	<p>This 6-week course of treatment provides accelerated brightening of the skin. It includes highly concentrated vitamin C to fade spots and stimulate collagen production, as well as lipoamino acid, plant extracts, and white mulberry tree extract.</p> <p>Each ampoule is enough for one week. To mix both phases of the concentrate, press the red button on the sealing cap. Replace the push button with the pipette cap. Shake ampoule well to mix contents. Apply approximately 1 ml of the solution in the evening, followed by Brightening Night Restore.</p> <p>SPF protection must be used during the day during this course of treatment.</p>
4. Moisturize	Melafadin Day Protection	<p>This day cream contains skin-brightening actives and SPF 20 to brighten and protect skin. Sun protection is vital when you are using a brightening regimen, as skin becomes more sensitive to UV. Apply to face and neck in the morning and massage in gently.</p>
	Brightening Night Restore	<p>Melanin-inhibiting lipoamino acid and plant extracts block the formation of dark spots and encourage regeneration of fresh skin. Apply onto face and neck in the evening after cleansing and toning, and massage in gently.</p>
