

Sensitive Skin

Janssen Cosmetics' Sensitive Skin collection is specially made for skin that is reactive and often irritated. The skin defense complex in these products nourishes and replenishes the skin's natural defenses, while the sensitive skin complex aims to soothe irritation and treats symptoms of irritation.

The Sensitive Skin collection is formulated to be as gentle as possible on reactive skin. It contains no preservatives or allergenic perfumes, and uses only the most non-reactive ingredients.

1. Cleanse	Mild Cleansing Cream	This gentle cream cleanser removes impurities that can irritate the skin. Based on coconut oil, the Mild Cleansing Cream dissolves makeup and dirt without stripping the skin of moisture. Massage gently over face and neck. Rinse with water. Follow with Soothing Gel Toner.
2. Tone	Soothing Gel Toner	The Soothing Gel Toner removes cleansing residues that can cause irritation, and at the same time moisturizes, soothes, and protects the skin. Pour onto a cotton pad and stroke gently over face and neck.
3. Moisturize	Soothing Face Lotion	This light moisturizing lotion is perfect for sensitive skin that is also oily. Skin strengthening extracts enhance the skin's barrier, while hyaluronic acid and squalane moisturize and smooth the skin. Spread over face and neck; this lotion absorbs quickly.
	Calming Sensitive Cream	This rich cream is suitable for sensitive skin that is rather dry. With a higher oil content than the Soothing Face Lotion, it helps restore the skin's barrier that may have become compromised. Gently massage over face and neck.
4. Protect	Face Guard SPF 30	Sensitive skin can become irritated from sun exposure. Protect skin with Face Guard SPF 30 - this light sun lotion reflects UV rays without aggravating sensitive skin.

Advanced Protocol

1. Cleanse	Mild Cleansing Cream	This gentle cream cleanser removes impurities that can irritate the skin. Based on coconut oil, the Mild Cleansing Cream dissolves makeup and dirt without stripping the skin of moisture. Massage gently over face and neck. Rinse with water. Follow with Soothing Gel Toner.
2. Tone	Soothing Gel Toner	The Soothing Gel Toner removes cleansing residues that can cause irritation, and at the same time moisturizes, soothes, and protects the skin. Pour onto a cotton pad and stroke gently over face and neck.
3. Mask	Soothing Face Mask	The Soothing Face Mask is especially important in cases of severe irritation. The highly concentrated plant extracts quickly relieve inflammation and normalize the skin's reactivity. Apply generously to cleansed skin and leave on for up to 20 minutes. Gently remove using moist warm cloths.
4. Treat	Sensitive Skin Complex	The Sensitive Skin Complex penetrates deep into the skin to reduce sensitivity. With continued use, skin becomes more stable and less reactive. Apply onto cleansed skin morning and evening, followed by day or night moisturizer.
5. Moisturize	Soothing Face Lotion	This light moisturizing lotion is perfect for sensitive skin that is also oily. Skin strengthening extracts enhance the skin's barrier, while hyaluronic acid and squalane moisturize and smooth the skin. Spread over face and neck; this lotion absorbs quickly.
	Calming Sensitive Cream	This rich cream is suitable for sensitive skin that is rather dry. With a higher oil content than the Soothing Face Lotion, it helps restore the skin's barrier that may have become compromised. Gently massage over face and neck.
6. Eye Cream	Eye Care Lotion	The Eye Care Lotion calms inflammation around the eyes, reducing puffiness and dark circles. Gently pat lotion around eyes using your fourth or pinky finger.

6. Protect	Face Guard SPF 30	Sensitive skin can become irritated from sun exposure. Protect skin with Face Guard SPF 30 - this light sun lotion reflects UV rays without aggravating sensitive skin.
