

Regeneration

Our Regeneration collection is for tired, stressed skin that needs a boost in vitality and freshness. This anti-aging cosmeceutical line penetrates deep into the skin to support natural regenerative activity, stimulating collagen repair and cell renewal. This product line contains extra rich moisture for skin that is becoming drier due to hormones, environmental stress, and age.

Kombucha made from fermented black tea softens the skin and promotes a fresh complexion.

Macadamia oil naturally soothes and moisturizes the skin.

Red clover and iris root extracts contain plant hormones that regenerate the proteins and connective tissues of the skin.

Basic Protocol

1. Cleanse	Cleansing Mousse	This mild foaming cleanser includes kombucha and amino acids that dissolve dirt and makeup, leaving skin fresh and clean. Pump foam into palm of hand and apply to face and neck. Add a little water and massage briefly before rinsing off.
2. Tone	Skin Tonic	This alcohol-free toner removes any traces of cleanser and mineral deposits from the water after cleansing. Hyaluronic acid restores moisture to the skin. Pour Skin Tonic onto cotton pad and stroke gently over face and neck.
3. Exfoliate	Skin Refining Enzyme Peel	As skin ages, cell turnover slows down and needs a little help with gentle exfoliation. This enzyme peel contains subtilisin, an enzyme that dissolves the bonds between dead skin cells. Apply to cleansed skin once or twice a week in the evening. Leave on overnight. Apply night cream on top. Wash off in the morning. When using an exfoliation product, be sure to protect skin during the day with Face Guard SPF 30.
4. Moisturize	De-Age and Re-Lift Lotion	This light lotion absorbs rapidly with a combination of kombucha, vitamin E, and saccharides. It hydrates and promotes a fresh complexion without making skin oily. Apply over face and neck and gently massage in. Works well under makeup.

	Extra Rich Convenience Cream	Hormonal changes can cause skin to produce less sebum, making it more prone to dry out. The Extra Rich Convenience Cream is an oil-rich cream that balances dry skin, restores the skin's barrier, and smoothes the skin. Smooth over face and neck morning and evening.
5. Eye Cream	Bi-Care Eye Cream	This lifting eye cream features concentrated actives like peptides, hyaluronic acid, and vitamins to improve rings around eyes and smooth out fine lines. Pat around eyes with fourth or pinky finger.
6. Protect	Face Guard SPF 30	The Regeneration line contains many actives to resurface and regenerate the skin. To prevent damage to sensitized skin, UV protection is vital. Apply a generous layer of Face Guard SPF 30 over face and neck.

Advanced Protocol

1. Cleanse	Cleansing Mousse	This mild foaming cleanser includes kombucha and amino acids that dissolve dirt and makeup, leaving skin fresh and clean. Pump foam into palm of hand and apply to face and neck. Add a little water and massage briefly before rinsing off.
2. Tone	Skin Tonic	This alcohol-free toner removes any traces of cleanser and mineral deposits from the water after cleansing. Hyaluronic acid restores moisture to the skin. Pour Skin Tonic onto cotton pad and stroke gently over face and neck.
3. Mask	Trifolia Face Mask	A rich cream mask that pampers while saturating skin with anti-aging actives, the Trifolia Face Mask contains red clover extract to stimulate skin's regenerative process. Generously apply to cleansed skin two or three times a week. Leave on 10-15 minutes and remove excess with moist cloths. Continue with other care products.

4. Exfoliate	Skin Refining Enzyme Peel	As skin ages, cell turnover slows down and needs a little help with gentle exfoliation. This enzyme peel contains subtilisin, an enzyme that dissolves the bonds between dead skin cells. Apply to cleansed skin once or twice a week in the evening. Leave on overnight. Apply night cream on top. Wash off in the morning. When using an exfoliation product, be sure to protect skin during the day with Face Guard SPF 30.
5. Treat	Trifolia Complex	Red clover extract in this concentrated treatment serum fortify the skin, stimulates increased cell activity, and deeply moisturizes dehydrated skin. Use as a 30-day course of treatment. Smooth 2-3 pumps of complex over skin and allow to absorb before applying cream.
	De -Age and Re-Lift Concentrate	This firming serum uses isoflavones and hyaluronic acid to increase collagen and plump out skin, reducing fine lines and wrinkles instantly. It is also known as our liquid filler. Apply to face and neckline before applying cream on top.
	De-Contract Serum Gel	Biological oligopeptide used in this anti-aging serum help to relax muscles beneath the skin, smoothing expression lines and wrinkles over a period of 30 days. The effects can be compared to injectable treatments. Apply generously to lines and wrinkles as well as surrounding areas of skin. Apply cream on top.
	Isoflavonia Relief	These skin-smoothing treatment capsules protect against free radicals and smooth away fine lines. These capsules contain no preservatives so entire capsule should be used at one time. Twist open capsule and massage contents over skin, paying special attention to creases. Can be used under cream or by itself as a one-step treatment moisturizer.
4. Moisturize	De-Age and Re-Lift Lotion	This light lotion absorbs rapidly with a combination of kombucha, vitamin E, and saccharides. It hydrates without making skin oily. Apply over face and neck and gently massage in. Works well under makeup.
	Extra Rich Convenience Cream	Hormonal changes can cause skin to produce less sebum, making it more prone to dry out. The Extra Rich Convenience Cream is an oil-rich cream that balances dry skin, restores the skin's barrier, and smoothes the skin. Smooth over face and neck morning and evening.

5. Eye Cream	Bi-Care Eye Cream	This lifting eye cream features concentrated actives like peptides, hyaluronic acid, and vitamins to improve rings around eyes and smooth out fine lines. Pat around eyes with fourth or pinky finger.
6. Protect	Face Guard SPF 30	The Regeneration line contains many actives to resurface and regenerate the skin. To prevent damage to sensitized skin, UV protection is vital. Apply a generous layer of Face Guard SPF 30 over face and neck.
