

Trend Edition

Every few years, new and innovative ingredients in the field of skin care research become popular around the world. Our Trend Edition products aim to harness the effects of these cutting-edge compounds to bring you the latest in skin care ingredients and technology.

Trend Edition Skin Youth

Our Trend Edition Skin Youth product line is inspired by the latest discoveries in anti-aging research. It features the active substance RSL and an extract derived from *Oryza sativa* (rice bran) that have been shown in studies to decrease the volume and depth of wrinkles.

You can use these youth-preserving products alongside any of our other skincare lines, but we recommend combining them with our Demanding Skin collection.

Step	Product	Usage
Moisturize	Skin Youth Formula	This light lotion revitalizes stressed or demanding skin and slows signs of aging. A complex of actives including RSL, Japanese silk, oryza sativa extract, hyaluronic acid, and vitamin E regenerate and hydrate the skin. Apply to face and neck after cleansing and toning.
	Skin Youth Cream	This rich and nourishing cream is perfect for women who want to retain youthfulness in the long term. RSL, Japanese silk, oryza sativa extract, hyaluronic acid, and vitamin E vitalizes demanding skin. With a higher proportion of oils than the Skin Youth Formula, the Skin Youth Cream seals in moisture, softens and smoothes skin. After cleansing and toning, massage over face and neck.

Trend Edition Skin Contour

This anti-aging collection goes beyond treating wrinkles to actually firm the skin from within and lift sagging of the cheek area. Peptides stimulate collagen production in the skin, making your skin more elastic and youthful-looking. Meanwhile, our highly-concentrated SORR plant extract complex brightens and firms skin from within.

The Trend Edition Skin Contour products can be used alongside any of our skin care collections, but we recommend combining them with our Regeneration collection, which targets anti-aging care.

Step	Product	Usage
------	---------	-------

Moisturize	Skin Contour Formula	The Skin Contour Formula lotion contains SORR, a complex of highly active plant extracts which combat brown and red pigmentation and have an anti-inflammatory and anti-oxidant effect. Smooth Skin Contour Formula over cleansed and toned skin.
	Skin Contour Cream	The Skin Contour Cream is a rich and emollient cream that optimizes your facial profile by firming skin from its deepest layers using peptides and plant extracts. Massage over face and neck after cleansing and toning.
