

Klein

electronics

OEM SINCE 1991

WHY KLEIN?

QUALITY.

With in-house Electrical and Firmware engineering, Klein designs CADs, PCBs & FirmWare coding as a true ODM/OEM. We ensure high levels of Quality Control. Manufacturing and assembly is completed in Vietnam, Mexico, China and the USA. Klein has the lowest defect rate in the industry...less than 0.05%. Our QC/QA process has been vetted by Sonim, AT&T, Kenwood, Samsung and others.

SELECTION.

Two-Way Radios (analog and digital), Accessories for every brand of Radio, and an ever-growing line of Pro-Grade "Smart" accessories for P.O.C. (Push-To-Talk Over Cellular) - Earpieces, Headsets, Microphones, Chargers, Cases, Parts, etc.

FOCUS.

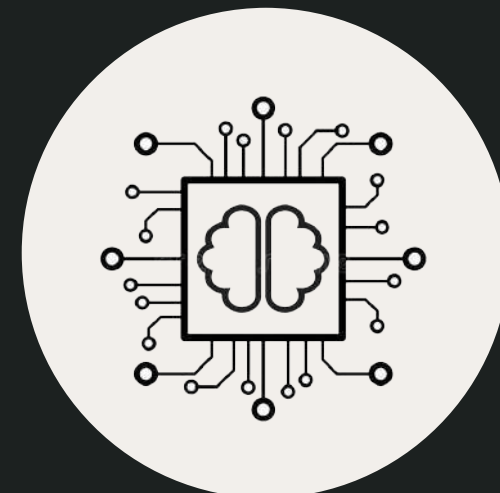

Since 1991, our design and development of communications gear has been Tier One. Our mature and experienced team continually iterates products and concepts to stay ahead, while using profit (not debt) to grow and be aligned with key brand-name industry partners.

Excellent Quality

Large Selection

Smart Products

PARTNERS

WE BUILD REPUTATIONS

Klein Partners with Major Distributors, Device Manufacturers, Carriers, Push-To-Talk Application Developers, Military & Fortune 500 Clients.

We continually update, upgrade and invest in more intelligent products to accommodate the mutual success of our OEM Clients and Partners.

How do our clients benefit from the Klein brand?

Collaborative design, build, testing & marketing, combined with a <1% defect rate, a comprehensive warranty program, experienced in-house electrical and firmware engineers. Combine that with a proven passion for constantly improving and developing new products that anticipate the next evolution of communications technology... **that's how.**

& many more...

WHAT ABOUT CUSTOM STUFF?

OEM / ODM

Klein designs and builds products for a variety of companies. Some of those products are exclusive to them, and require some NRE or contracts, but most are small-run products for a specific application. Got an idea? Talk with us today and let's brainstorm to build your next unique and successful product!

PRIVATE LABEL

Private labeling or co-branding is something we love to do. Let's chat about what items you would like to brand or package with your name or logo.

OUR BRANDS

KLEIN, BLACKBOX, ARMORCASE,
RADIOGRIPS, BLU-COMM.

These, along with dozens of
trademarked model names, are among
the most popular in the world today.

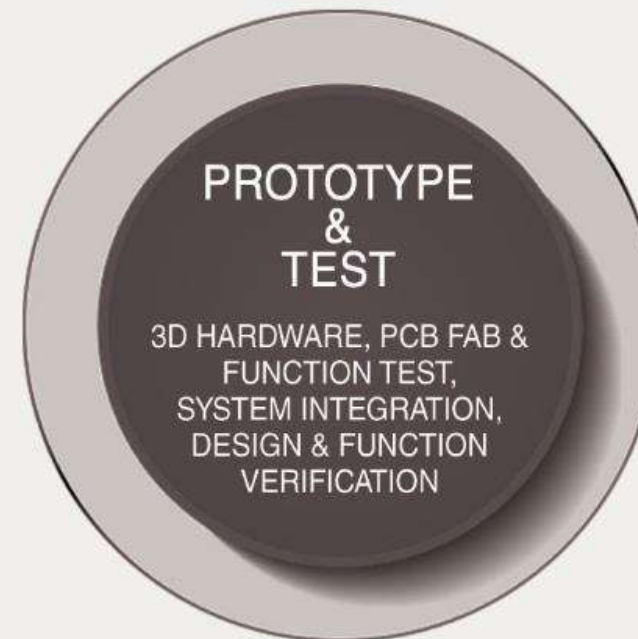

OR

YOUR BRANDS

Private Labeling and Custom
Packaging options are available at
no extra cost to you.

THE OEM / ODM PROCESS

■ ENGAGE – BRAINSTORM – COLLABORATE – DESIGN – BUILD

IT'S ALL ABOUT THE DESIGN

"Experience is that thing you get, right after you needed it."

So do it right the first time.

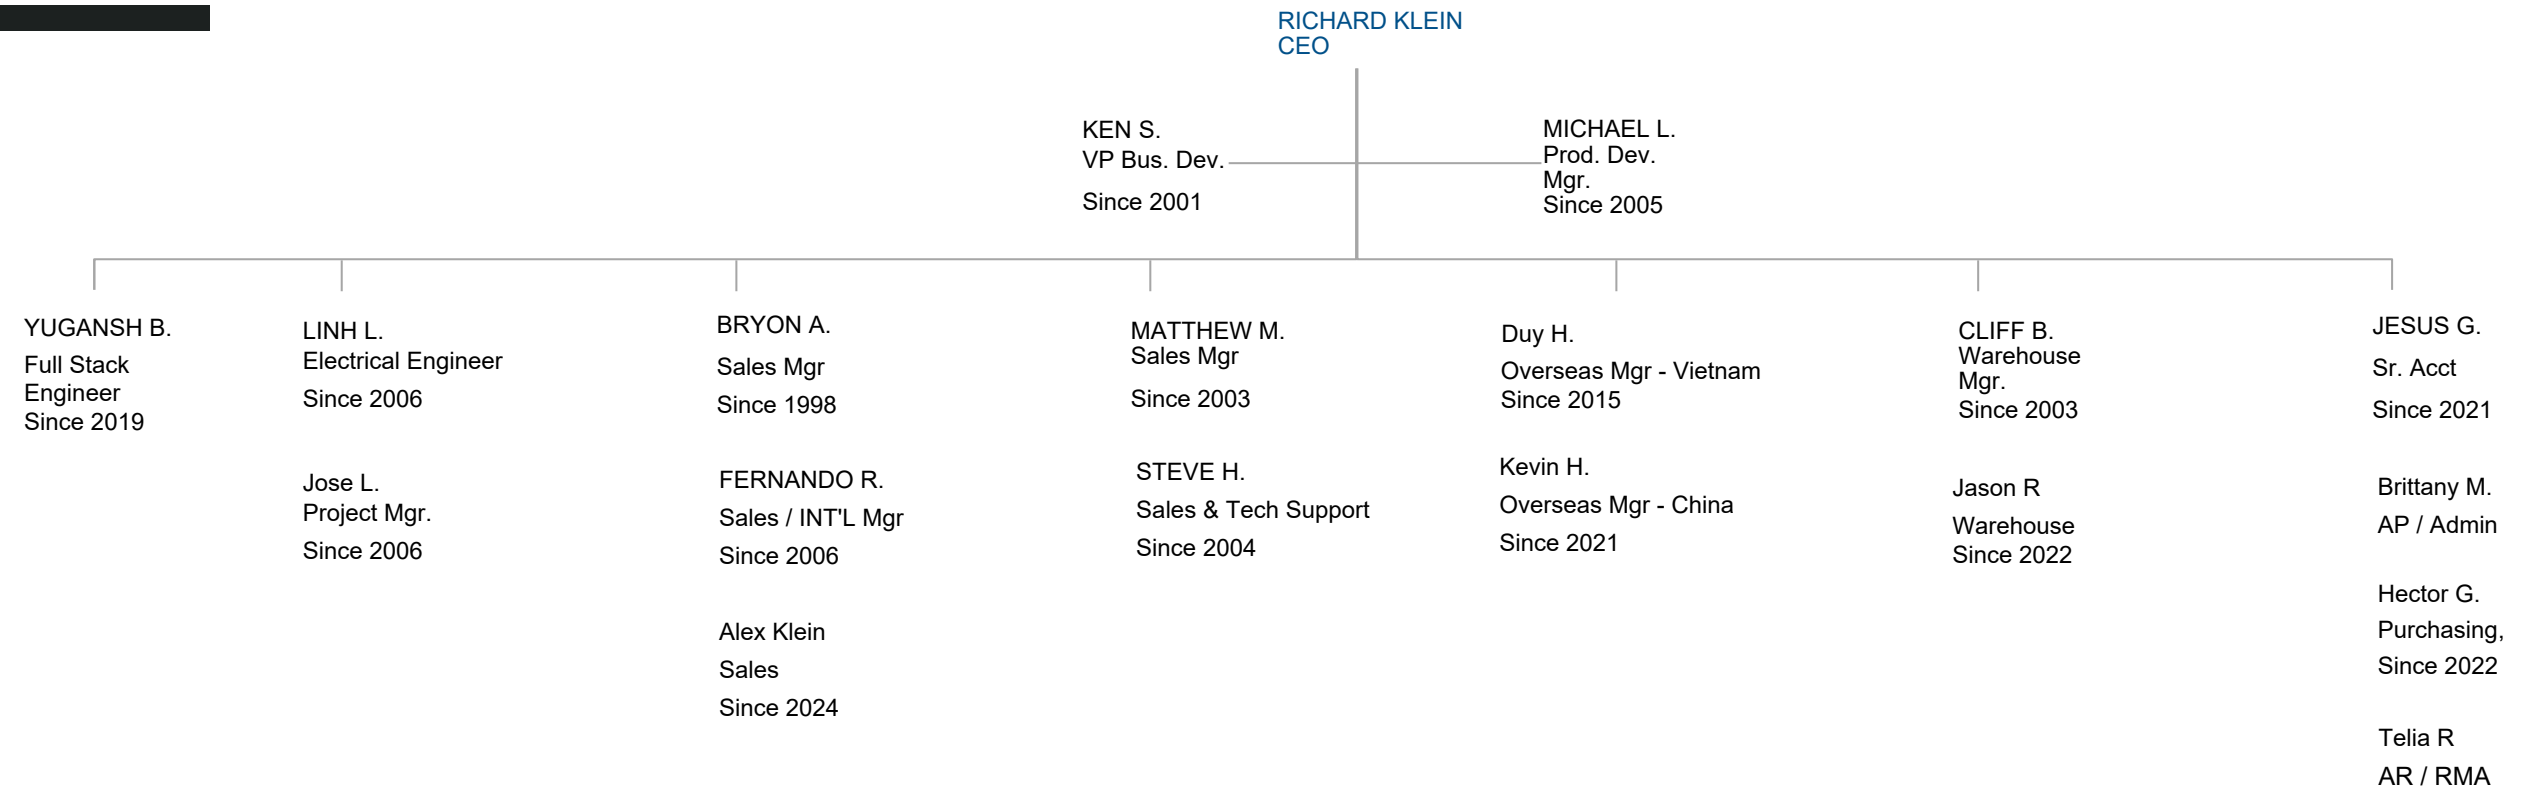

Klein has in-house electrical and full-stack firmware engineers. Exceptional design and concept creations.

Collaborate with us today!

OUR TEAM

**MATURE,
AGILE,
EXPERIENCED.**
