

**SECTION 1 — Identification**

|                       |                                                     |
|-----------------------|-----------------------------------------------------|
| Product name          | Bird of Paradise                                    |
| Supplier name         | Lone Star Candle Supply, Inc.                       |
| Recommended use       | Compound used in customer substance/mixture/product |
| Supplier address      | 5800 Park Vista Circle, Keller, TX 76244            |
| Supplier phone        | 1-800-929-9425                                      |
| Emergency phone (24h) | CHEMTREC 1-800-424-9300 / +1 703-741-5970           |

**SECTION 2 — Hazards Identification**
**2.1. Classification of the substance or mixture**
**GHS US classification**

| Hazard class       | Category   | Hazard statement                           |
|--------------------|------------|--------------------------------------------|
| Skin sensitization | Category 1 | H317 - May cause an allergic skin reaction |

Full text of H statements : see section 16

**2.2. GHS Label elements, including precautionary statements**

Hazard pictograms (GHS US):

Signal word (GHS US): Warning

Hazard statements (GHS US): H317 - May cause an allergic skin reaction

 Precautionary statements (GHS US):  
 P272 - Contaminated work clothing must not be allowed out of the workplace.  
 P280 - Wear cold insulating gloves, eye protection, face protection, face shield, protective clothing, protective gloves.  
 P302+P352 - If on skin: Wash with plenty of water.  
 P333+P313 - If skin irritation or rash occurs: Get medical advice/attention.  
 P501 - Dispose of contents/container in accordance with local/national laws and regulations

**2.3. Other hazards which do not result in classification**

No additional information available

**2.4. Unknown acute toxicity (GHS US)**

Not applicable

**SECTION 3 — Composition / Information on Ingredients**
**3.1. Substances**

Not applicable

**3.2. Mixtures**

| Name                    | Product identifier | %          | GHS US classification                                                                       |

Full text of hazard classes and H-statements : see section 16

## SECTION 4 — First-Aid Measures

### 4.1. Description of first aid measures

|                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|----------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| First-aid measures general:            | Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible). Suspected of causing cancer (IF exposed or concerned: Get medical advice/attention.).                                                                                                                                                                                                                                                         |
| First-aid measures after inhalation:   | Allow affected person to breathe fresh air. Allow the victim to rest.                                                                                                                                                                                                                                                                                                                                                                                                         |
| First-aid measures after skin contact: | Wash with plenty of soap and water. Wash contaminated clothing before reuse. If skin irritation occurs: Get immediate medical advice/attention. Get medical advice/attention. Specific treatment (see Wash skin with plenty of water, Call a physician immediately on this label). If skin irritation or rash occurs: Get immediate medical advice/attention. Remove affected clothing and wash all exposed skin area with mild soap and water, followed by warm water rinse. |
| First-aid measures after eye contact:  | Rinse immediately with plenty of water. Obtain medical attention if pain, blinking or redness persists.                                                                                                                                                                                                                                                                                                                                                                       |
| First-aid measures after ingestion:    | Rinse mouth. Do NOT induce vomiting. Obtain emergency medical attention.                                                                                                                                                                                                                                                                                                                                                                                                      |

### 4.2. Most important symptoms and effects (acute and delayed)

|                                                      |                                                                                          |
|------------------------------------------------------|------------------------------------------------------------------------------------------|
| Potential Adverse human health effects and symptoms: | Based on available data, the classification criteria are not met.                        |
| Symptoms/effects:                                    | Not expected to present a significant hazard under anticipated conditions of normal use. |
| Symptoms/effects after inhalation:                   | May cause an allergic skin reaction.                                                     |
| Symptoms/effects after skin contact:                 | Causes skin irritation.                                                                  |

### 4.3. Immediate medical attention and special treatment, if necessary

No additional information available

## SECTION 5 — Fire-Fighting Measures

### 5.1. Suitable (and unsuitable) extinguishing media

|                                 |                                                      |
|---------------------------------|------------------------------------------------------|
| Suitable extinguishing media:   | Foam. Dry powder. Carbon dioxide. Water spray. Sand. |
| Unsuitable extinguishing media: | Do not use a heavy water stream.                     |

### 5.2. Specific hazards arising from the chemical

No additional information available

### 5.3. Special protective equipment and precautions for fire-fighters

|                                 |                                                                                                                                                                 |
|---------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Firefighting instructions:      | Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Prevent fire-fighting water from entering environment. |
| Protection during firefighting: | Do not enter fire area without proper protective equipment, including respiratory protection.                                                                   |

## SECTION 6 — Accidental Release Measures

### 6.1. Personal precautions, protective equipment and emergency procedures

#### 6.1.1. For non-emergency personnel

|                                                                                                         |                                                                                                                                              |
|---------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------|
| Emergency procedures:                                                                                   | Evacuate unnecessary personnel.                                                                                                              |
| <b>6.1.2. For emergency responders</b>                                                                  |                                                                                                                                              |
| Protective equipment:                                                                                   | Equip cleanup crew with proper protection.                                                                                                   |
| Emergency procedures:                                                                                   | Ventilate area.                                                                                                                              |
| <b>6.2. Environmental precautions</b>                                                                   |                                                                                                                                              |
| Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters. |                                                                                                                                              |
| <b>6.3. Methods and material for containment and cleaning up</b>                                        |                                                                                                                                              |
| Methods for cleaning up:                                                                                | Soak up spills with inert solids, such as clay or diatomaceous earth as soon as possible. Collect spillage. Store away from other materials. |
| <b>6.4. Reference to other sections</b>                                                                 |                                                                                                                                              |
| See Heading 8. Exposure controls and personal protection.                                               |                                                                                                                                              |

## SECTION 7 — Handling and Storage

### 7.1. Precautions for safe handling

|                                |                                                                                                                                                                                                                                                                                                                                                                       |
|--------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Precautions for safe handling: | Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor. Avoid breathing dust, fume, gas, mist, spray, vapors. Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. |
| Hygiene measures:              | Wash hands thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reuse.                                                                                                                                                                                                                 |

### 7.2. Conditions for safe storage, including any incompatibilities

|                             |                                                                                                                                                                                                                        |
|-----------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Storage conditions:         | Keep only in the original container in a cool, well ventilated place away from : Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Keep container closed when not in use. |
| Incompatible products:      | Strong bases. Strong acids.                                                                                                                                                                                            |
| Incompatible materials:     | Sources of ignition. Direct sunlight.                                                                                                                                                                                  |
| Storage temperature:        | 25 °C                                                                                                                                                                                                                  |
| Storage area:               | Store in a well-ventilated place. Store away from heat.                                                                                                                                                                |
| Special rules on packaging: | Store in a closed container.                                                                                                                                                                                           |
| Packaging materials:        | Do not store in corrodable metal.                                                                                                                                                                                      |

## SECTION 8 — Exposure Controls / Personal Protection

### 8.1. Control parameters

#### Cyclamal (103-95-7)

No additional information available

#### Benzyl salicylate (118-58-1)

No additional information available

#### Hexyl cinnamic aldehyde (101-86-0)

No additional information available

#### Linalool (78-70-6)

No additional information available

#### Lyrall (31906-04-4)

No additional information available

#### 2-Isobutyl-4-methyltetrahydro-2H-pyran-4-ol (63500-71-0)

No additional information available

## Phenylethyl alcohol (60-12-8)

No additional information available

### 8.2. Appropriate engineering controls

No additional information available

### 8.3. Individual protection measures / Personal protective equipment

|                                |                                    |
|--------------------------------|------------------------------------|
| Personal protective equipment: | Avoid all unnecessary exposure.    |
| Hand protection:               | Wear protective gloves.            |
| Eye protection:                | Chemical goggles or safety glasses |
| Skin and body protection:      | Wear suitable protective clothing  |
| Respiratory protection:        | Wear appropriate mask              |
| PPE symbols:                   |                                    |

|                    |                                        |
|--------------------|----------------------------------------|
| Other information: | Do not eat, drink or smoke during use. |
|--------------------|----------------------------------------|

## SECTION 9 — Physical and Chemical Properties

### 9.1. Information on basic physical and chemical properties

|                                                  |                    |
|--------------------------------------------------|--------------------|
| Physical state:                                  | Liquid             |
| Color:                                           | light yellow amber |
| Odor:                                            | characteristic     |
| Odor threshold:                                  | No data available  |
| pH:                                              | No data available  |
| Melting point:                                   | No data available  |
| Freezing point:                                  | No data available  |
| Boiling point:                                   | No data available  |
| Flash point:                                     | > 95 °C            |
| Relative evaporation rate (butyl acetate=1):     | No data available  |
| Flammability (solid, gas):                       | Non flammable.     |
| Vapor pressure:                                  | No data available  |
| Relative vapor density at 20 °C:                 | No data available  |
| Relative density:                                | ≈ 0.95             |
| Solubility:                                      | No data available  |
| Partition coefficient n-octanol/water (Log Pow): | No data available  |
| Auto-ignition temperature:                       | No data available  |
| Decomposition temperature:                       | No data available  |
| Viscosity, kinematic:                            | No data available  |
| Viscosity, dynamic:                              | No data available  |
| Explosion limits:                                | No data available  |
| Explosive properties:                            | No data available  |
| Oxidizing properties:                            | No data available  |

### 9.2. Other information

No additional information available

## SECTION 10 — Stability and Reactivity

#### 10.1. Reactivity

No additional information available

#### 10.2. Chemical stability

Not established.

#### 10.3. Possibility of hazardous reactions

Not established.

#### 10.4. Conditions to avoid

Direct sunlight. Extremely high or low temperatures.

#### 10.5. Incompatible materials

Strong acids. Strong bases.

#### 10.6. Hazardous decomposition products

fume. Carbon monoxide. Carbon dioxide.

### SECTION 11 — Toxicological Information

#### 11.1. Information on toxicological effects

Acute toxicity (oral): Not classified

Acute toxicity (dermal): Not classified

Acute toxicity (inhalation): Not classified

##### Cyclamal (103-95-7)

|                 |                        |
|-----------------|------------------------|
| LD50 oral rat   | 3810 mg/kg             |
| LD50 dermal rat | > 5000 mg/kg           |
| ATE US (oral)   | 3810 mg/kg body weight |

##### Benzyl salicylate (118-58-1)

|                    |                        |
|--------------------|------------------------|
| LD50 oral rat      | 2227 mg/kg             |
| LD50 dermal rabbit | > 5000 mg/kg           |
| ATE US (oral)      | 2227 mg/kg body weight |

##### Hexyl cinnamic aldehyde (101-86-0)

|                       |                        |
|-----------------------|------------------------|
| LD50 oral rat         | 3100 mg/kg             |
| LD50 dermal rabbit    | > 3000 mg/kg           |
| LC50 Inhalation - Rat | > 5 mg/l/4h            |
| ATE US (oral)         | 3100 mg/kg body weight |

##### Lyrall (31906-04-4)

|               |                        |
|---------------|------------------------|
| LD50 oral rat | 3250 µl/kg             |
| ATE US (oral) | 3250 mg/kg body weight |

##### 2-Isobutyl-4-methyltetrahydro-2H-pyran-4-ol (63500-71-0)

|                    |              |
|--------------------|--------------|
| LD50 dermal rabbit | > 2000 mg/kg |
|--------------------|--------------|

##### Phenylethyl alcohol (60-12-8)

|                       |                        |
|-----------------------|------------------------|
| LD50 oral rat         | 1609 mg/kg             |
| LD50 dermal rabbit    | 2535 mg/kg             |
| LC50 Inhalation - Rat | > 4.63 mg/l/4h         |
| ATE US (oral)         | 1609 mg/kg body weight |
| ATE US (dermal)       | 2535 mg/kg body weight |

|                                                      |                                                                                          |
|------------------------------------------------------|------------------------------------------------------------------------------------------|
| Skin corrosion/irritation:                           | Not classified                                                                           |
| Serious eye damage/irritation:                       | Not classified                                                                           |
| Respiratory or skin sensitization:                   | May cause an allergic skin reaction.                                                     |
| Germ cell mutagenicity:                              | Not classified                                                                           |
| Carcinogenicity:                                     | Not classified                                                                           |
| Reproductive toxicity:                               | Not classified                                                                           |
| STOT-single exposure:                                | Not classified                                                                           |
| STOT-repeated exposure:                              | Not classified                                                                           |
| Aspiration hazard:                                   | Not classified                                                                           |
| Viscosity, kinematic:                                | No data available                                                                        |
| Potential Adverse human health effects and symptoms: | Based on available data, the classification criteria are not met.                        |
| Symptoms/effects:                                    | Not expected to present a significant hazard under anticipated conditions of normal use. |
| Symptoms/effects after inhalation:                   | May cause an allergic skin reaction.                                                     |
| Symptoms/effects after skin contact:                 | Causes skin irritation.                                                                  |

## SECTION 12 — Ecological Information

### 12.1. Toxicity

#### Benzyl salicylate (118-58-1)

|                 |                                                                      |
|-----------------|----------------------------------------------------------------------|
| LC50 - Fish [1] | 1.03 mg/l (Exposure time: 96 h - Species: Danio rerio [semi-static]) |
|-----------------|----------------------------------------------------------------------|

#### Phenylethyl alcohol (60-12-8)

|                      |                                                            |
|----------------------|------------------------------------------------------------|
| EC50 - Crustacea [1] | 287.17 mg/l (Exposure time: 48 h - Species: Daphnia magna) |
|----------------------|------------------------------------------------------------|

### 12.2. Persistence and degradability

|                                |                  |
|--------------------------------|------------------|
| Persistence and degradability: | Not established. |
|--------------------------------|------------------|

### 12.3. Bioaccumulative potential

|                            |                  |
|----------------------------|------------------|
| Bioaccumulative potential: | Not established. |
|----------------------------|------------------|

#### Cyclamal (103-95-7)

|                                                 |                |
|-------------------------------------------------|----------------|
| Partition coefficient n-octanol/water (Log Pow) | 3.4 (at 35 °C) |
|-------------------------------------------------|----------------|

#### Benzyl salicylate (118-58-1)

|                                                 |   |
|-------------------------------------------------|---|
| Partition coefficient n-octanol/water (Log Pow) | 4 |
|-------------------------------------------------|---|

#### 2-Isobutyl-4-methyltetrahydro-2H-pyran-4-ol (63500-71-0)

|                                                 |                                    |
|-------------------------------------------------|------------------------------------|
| Partition coefficient n-octanol/water (Log Pow) | 1.65 (at 23 °C (at pH >6.09-<6.74) |
|-------------------------------------------------|------------------------------------|

#### Phenylethyl alcohol (60-12-8)

|                                                 |                          |
|-------------------------------------------------|--------------------------|
| Partition coefficient n-octanol/water (Log Pow) | 1.36 (at 20 °C (at pH 7) |
|-------------------------------------------------|--------------------------|

### 12.4. Mobility in soil

No additional information available

### 12.5. Other adverse effects

|                    |                                   |
|--------------------|-----------------------------------|
| Other information: | Avoid release to the environment. |
|--------------------|-----------------------------------|

## SECTION 13 — Disposal Considerations

### 13.1. Disposal methods

|                                             |                                                                                                                                                               |
|---------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product/Packaging disposal recommendations: | Dispose in a safe manner in accordance with local/national regulations. Dispose of contents/container in accordance with local/national laws and regulations. |
| Ecology - waste materials:                  | Avoid release to the environment.                                                                                                                             |

## SECTION 14 — Transport Information

### In accordance with DOT

#### 14.1. UN number

Not regulated for transport

#### 14.2. UN proper shipping name

Proper Shipping Name (DOT): Not applicable

#### 14.3. Transport hazard class(es)

##### DOT

Transport hazard class(es) (DOT): Not applicable

#### 14.4. Packing group

Packing group (DOT): Not applicable

#### 14.5. Environmental hazards

Other information: No supplementary information available.

#### 14.6. Special precautions for user

DOT: No data available

#### 14.7. Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Not applicable

## SECTION 15 — Regulatory Information

### 15.1. US Federal regulations

All components of this product are present and listed as Active on the United States Environmental Protection Agency Toxic Substances Control Act (TSCA) inventory

### 15.2. International regulations

#### CANADA

##### Cyclamal (103-95-7)

Listed on the Canadian DSL (Domestic Substances List)

##### Benzyl salicylate (118-58-1)

Listed on the Canadian DSL (Domestic Substances List)

##### Hexyl cinnamic aldehyde (101-86-0)

Listed on the Canadian DSL (Domestic Substances List)

##### Linalool (78-70-6)

Listed on the Canadian DSL (Domestic Substances List)

##### Lylal (31906-04-4)

Listed on the Canadian DSL (Domestic Substances List)

##### 2-Isobutyl-4-methyltetrahydro-2H-pyran-4-ol (63500-71-0)

Listed on the Canadian DSL (Domestic Substances List)

##### Phenylethyl alcohol (60-12-8)

Listed on the Canadian DSL (Domestic Substances List)

#### EU-Regulations

##### Cyclamal (103-95-7)

Listed on the EEC inventory EINECS (European Inventory of Existing Commercial Chemical Substances)

##### Benzyl salicylate (118-58-1)

Listed on the EEC inventory EINECS (European Inventory of Existing Commercial Chemical Substances)

**Hexyl cinnamic aldehyde (101-86-0)**

Listed on the EEC inventory EINECS (European Inventory of Existing Commercial Chemical Substances)

---

**SECTION 16 — Other Information**

Revision date: 9/1/2022

**Full text of H-phrases**

|             |                                                   |
|-------------|---------------------------------------------------|
| <b>H227</b> | Combustible liquid                                |
| <b>H302</b> | Harmful if swallowed                              |
| <b>H315</b> | Causes skin irritation                            |
| <b>H317</b> | May cause an allergic skin reaction               |
| <b>H319</b> | Causes serious eye irritation                     |
| <b>H402</b> | Harmful to aquatic life                           |
| <b>H411</b> | Toxic to aquatic life with long lasting effects   |
| <b>H412</b> | Harmful to aquatic life with long lasting effects |

**NFPA health hazard:** 1 - Materials that, under emergency conditions, can cause significant irritation.**NFPA fire hazard:** 1 - Materials that must be preheated before ignition can occur.**NFPA reactivity:** 0 - Material that in themselves are normally stable, even under fire conditions.

**Disclaimer:** The information provided in this Material Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
