General information:	As in all cases of potential poisoning, Obtain medical advice immediately.
In case of eye contact:	Irrigate copiously with water for at least 10 minutes. Obtain medical advice if any irritation or evidence of tissue damage persists.
In case of inhalation:	Remove the individual to fresh air and keep at rest. Obtain medical advice immediately.
In case of skin contact:	Remove contaminated clothes. Wash skin with large volumes of water. If irritation persists, or any sign of tissue damage is apparent, obtain medical advice immediately.
In case of ingestion:	Rinse mouth with water. Obtain medical advice immediately.

No specific advice.

SECTION 6 — Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel:	Adequate protective gloves should be worn when handling spillages. No smoking. Avoid naked flames or other potential sources of ignition (eg. electrical equipment). Avoid skin contamination and inhalation of vapour. Individual washing routines should be followed after any potential contact. Ensure adequate ventilation in working areas following accidental releases.
For emergency personnel:	Apply the same recommendations as section 6.1

6.2 Environmental precautions

Do not discharge directly into drains, air, into soil or into the aquatic environment.

6.3 Methods and material for containment and cleaning up

For containment:	Any absorbent used for cleaning up spillage should be disposed promptly,accordingly to local regulation. Gross spillages should be contained by any means, and disposal of this should be in accordance with Government Regulations. WARNING: This compound contains one or more chemicals that may auto-oxidize. Rags used to wipe up spills, or activated carbon used to absorb vapors of this compound, may spontaneously ignite (auto-oxidation) if improperly disposed of. Dispose of all waste material in water filled containers.
For cleaning-up:	Spillages should be disposed of in accordance with Governmental Regulations.

SECTION 7 — Handling and Storage

7.1 Precautions for safe handling

Avoid contact with skin and eyes.
Wear adequate protective gloves protection and eye/face protection.
No smoking. Avoid any sources of ignition.
Avoid exposing to high temperature during processing.
Do not ingest or apply to the skin as such. Good personal washing routines should be followed. Skin residues may cause irritation in sunlight.
