

RPB® FABRICATION RANGE

Founded as a protective equipment task force in the 1970's, we have grown far beyond simply manufacturing products. We protect you for life's best moments.

RPB® is fueled by our R&D Special Ops Unit, comprised of the world's most bold and pioneering industry designers, users and advocates that revolutionize product innovation. We are fully dedicated to helping build a better future for the new generation of elite industrial troops; those who risk their lives so that future generations can thrive, rather than survive.

Enter the RPB® armory. The world's most advanced front-line armor for industry professionals consisting of powered and supplied air respirator systems, rigorously engineered resulting in increased comfort, advanced safety and superior respiratory protection.

PROTECTING YOU...

...FOR LIFE'S BEST MOMENTS. Those moments we experience every day. Be it a challenging mountain hike, a breathtaking sunset or just returning safety home from work to enjoy the things in life that matter most.

Z-LINK+® RESPIRATOR **MULTI-PURPOSE HEAVY INDUSTRY PROTECTION**

MULTI-PURPOSE HEAVY INDUSTRY PROTECTION

The RPB® Z-Link+® is the result of extensive user testing in demanding welding environments. As a welding professional, you will benefit from increased comfort and productivity, leaving you with more energy to enjoy life's best moments.

As the Z-Link+® clips directly onto your main visor, you can seamlessly weld with crystal-clear vision then lift up your visor to check welds and instantly begin grinding.

The Z-Link+® includes the large RPB® ADF lens with the 1.1.1.1. rating in optical quality. The all-important fourth "1", advanced angular dependence control, guarantees uniform shading and distortion-free vision, allowing you to work comfortably and effortlessly for hours across different angles.

This is more than a respirator, it's a system, giving you full protection above your shoulders - head, face, eye, hearing* and respiratory protection.

For more information visit rpbsafety.com/zlink+

* When used with the Quiet-Link™ system.

PROTECTING YOU FOR LIFE'S BEST MOMENTS

The Z-Link+® includes certified head, eye, hearing* and respiratory protection.

Visor lifter to easily raise and lower the welding visor. □—

Replaceable impact lens and removable ADF lens.

Adjustable comfort-fit padding system for optimum weight distribution.

Choice of 5 anti-fog and scratch resistant ANSI Z87+ visors (EN166):
Premium Clear, Green Tint (Shade 5),
Yellow Tint, Black Tint and Mirror Tint.

Visor hinges open. □-

Vision-Link™ light mount point. □

* When using the Quiet-Link™ ear defender system.

US Patent No. US D788,991 S.

Large welding auto darkening filter with a 1.1.1.1 rating. The fourth 1 is the all important angular dependency.

The Z-Link+® weld visor weighs only 13.8 ounces (390g) including ADF.

→ ANSI Z89.1 certified head protection (EN397).

─☐ For extended periods of grinding the visor is easily removed at the hinge points.

──□ 3 cape materials available: Tychem® 2000, Tychem® 4000 or Zytec® FR.

Fixed jaw ensures secure cape attachment.

Z4[™] RESPIRATOR

FABRICATION INDUSTRY PROTECTION

FABRICATION INDUSTRY PROTECTION

Designed with the primary focus on comfort, the RPB® Z4™ is as light as a feather, yet tough as steel. The most ergonomically balanced welding respirator available, you'll benefit from less aches and strains and have more fuel in the tank to enjoy life's best moments.

The Z4™ comprises of a crystal-clear grinding visor and a flip-up welding visor which you can lift to check welds and instantly begin grinding. Clip-in shade 5 side windows offer maximum peripheral vision. These can be switched out for window blockers which are also included in the standard package.

The Z4[™] is fitted with our large ADF lens boasting an optical quality rating of 1.1.1.1 with the all-important fourth "1". Advanced angular dependence control guarantees uniform shading and distortion-free vision, allowing operators to work comfortably across different angles as required.

To further increase your comfort and stability, the Z4™ can also be fitted with the Comfort-Link™ padding system.

For more information visit rpbsafety.com/z4

The patent pending dual air distribution system delivers 75% to your breathe zone via a multi-directional outlet.

The remaining 25% is directed over the grinding visor to prevent fogging.

Shown without hood for visual purposes only.

Optional magnifying lens available. 🖵

Flip up welding visor for optimum vision during grinding.

Comfortable multi-adjustment head suspension system.

Clear replaceable grinding lens -ANSI Z87+ approved (EN166). □—

Lightweight helmet 28.4 ounces (805g) with ADF and cape. □

Vision-Link™ light mount point. 🖵

Aerodynamic shell designed for greater fume deflection.

- ─□ Large auto darkening welding lenses with a 1.1.1.1 rating.
 - ──□ Optional side windows.
 - —□ Comfort-Link™ padding system (optional).
- ─□ Optional FR breathing tube cover.
- Quick fit bayonet lens replacement.
 - □ Breathing tube holder on cape to stabilize helmet.

- ─☐ Streamlined air direction the operator can adjust the direction of airflow with the dual air deflector.

 ☐☐ Streamlined air direction of airflow with the dual air deflector.
 - → FR rated head cover and cape.

Z3[™] RESPIRATOR

WELDING PROTECTION

WELDING PROTECTION

As the predecessor to the new Z4[™], the RPB[®] Z3[™] combines respiratory protection with leading optical technology.

Advance your workplace safety with a product that boasts a range of unique design and engineering features. The Z3™ can withstand extreme temperatures without distortion due to the high performance nylon shell construction. The adjustable airflow disperser means that you can operate in a comfortable and fume-free breathing zone.

The Z3[™] includes our large ADF lens boasting an optical quality rating of 1.1.1.1 with the all-important fourth "1". Advanced angular dependence control guarantees uniform shading and distortion-free vision, allowing operators to work comfortably across different angles as required.

Z-LINK® RESPIRATOR

HEAVY INDUSTRY PROTECTION

HEAVY INDUSTRY PROTECTION

The RPB® Z-Link® is more than a product. It's a system.
From welding (with the Z-Link+®) to grinding, the Z-Link® is the most versatile multi-purpose respirator on the planet.
Designed with your comfort in mind, the Z-Link® ensures you'll have more energy to enjoy life's best moments.

The Z-Link®'s large visor enables you to operate with a widened perspective. It features exceptional downward and peripheral vision combined with a visor that hinges open so you can easily communicate outside the work environment. With 5 lens options (including a shade 5 lens), the Z-Link® is perfect for arc spraying.

To further increase your comfort and stability, the Z-Link® can also be fitted with the Comfort-Link™ padding system.

This is more than a respirator, it's a system, giving you full protection above your shoulders - head, face, eye, hearing* and respiratory protection.

LIGHTWEIGHT GRINDING **PROTECTION**

The RPB® Z100™ respirator is a cost-effective lightweight solution for a variety of industries and applications including grinding and brazing.

Manufactured from RPB® Zytec® fabric the Z100™ is a lightweight hood that offers superior comfort in comparison to conventional grinding shields, or tight-fitting full-face respirators. The hood protects your entire head, eliminating the need for any additional head protection.

Additionally, users with facial hair commonly convert to this loose-fitting respirator, without jeopardizing or compromising respiratory protection.

For more information visit rpbsafety.com/z100 PROTECTING YOU FOR LIFE'S BEST MOMENTS®

Loop allows for easy storage. \Box —

Quick release breathing tube clip provides security and is easily replaced.

Extra tuck-in collar to direct the airflow over the upper body, providing additional comfort.

- ─☐ Optional peel-off lenses available.
- ─☐ RPB® Zytec® flame resistant material designed for use in extreme environments.

HARD HAT

THE PX4 AIR® PURIFYING RESPIRATOR

The RPB® PX4 Air® is a robust and versatile Powered Air Purifying Respirator (PAPR) that provides clean breathing air to your RPB® respirator.

The PX4 Air® is ergonomically designed and is lighter in weight to reduce fatigue over long work shifts.

Optimizing your safety, comfort and portability, you'll benefit from clean breathing air without the restriction of attached airlines, providing complete flexibility to move around as the job requires.

For more information visit rpbsafety.com/px4-air

PROTECTING YOU FOR LIFE'S BEST MOMENTS

SUPPLIED AIR

The RPB® fabrication range can be connected to compressed air using the following components:

GX4® GAS MONITOR

Have complete confidence in the air you and your team breathe with the GX4®, an intelligent gas monitor that has the ability to detect up to 4 gases simultaneously.

RADEX® AIRLINE FILTER

The Radex® Airline Filter exceeds industry filtration standards so you can be assured that you and your team won't suffer the consequences of breathing contaminated air.

C40™ CLIMATE CONTROL DEVICE*

The C40™ can heat and cool your supplied air as desired. With the slide of a lever, you can switch from heating to cooling ensuring you are always comfortable. The C40™ can cool the incoming air by up to 52°F (29°C) and heat it by up to 33°F (18°C).

* Other flow devices available.

PROTECTING YOU FOR LIFE'S BEST MOMENTS®

⚠ WARNING

PRODUCT SELECTION

- Determine what type of protection is required for your activity.
 As applicable, check your workplace safety program, respiratory protection program, and standards and regulations for your activity or industry.
- 2. Check product specifications. Contact RPB® or check the product instruction manual (downloadable from rpbsafety.com) for complete specifications, including approvals, standards, and regulations to which the product conforms.
- **3. Make sure you have a complete system.** Verify that you have or are purchasing all required components. System requirements are available from RPB® or in product instruction manuals.

Selecting inappropriate or incomplete equipment, including the use of counterfeit or non-RPB® parts, can result in inadequate protection and will void the NIOSH approval of the entire respirator.
