We recommend using yarns called for in our instructions. Every effort has been made to ensure that directions contained in this pattern are accurate and complete, however errors do occur. We cannot be responsible for variance of individual knitters, human or typographical errors.

All pattern PDFs are updated when corrections are made. In the event of finding an error, please make sure you've downloaded the most recent version.

CONSTRUCTION NOTES

The blanket consists of 12 unique cable blocks, each worked individually and then sewn together. The blocks include a garter stitch selvedge edge. Each block's pattern stitch is both written and charted for your preference.

Cast on all blocks using the long-tail method; the first row begins on a WS row.

Expect slight variations in the finished measurements of the different cable blocks. Cable and rib stitches naturally draw in, so when blocking, focus on stretching each block widthwise to reach the stated measurements. Once the blocks are joined, this inward pull will balance out.

At this stage, you may find it enjoyable to seam your blocks as you complete them. If you are new to seaming, look forward to an upcoming Finishing video later this year, or refer to last year's blanket seaming tutorial on YouTube HERE.
