NEEDLES

See individual block patterns for needle sizes; most
blocks can be worked on straight or any length circular
needles, sizes 7 / 4.5 mm (smaller needle) and 8 / 5 mm
(larger needle) *or sizes to obtain gauge for each block; see
below for general gauge guideline.*

A few blocks are made in the round, and require double-
pointed needles (dpns), or preferred needles for working
small circumferences.

Edgings will require a long circular needle (smaller size).

NOTIONS

Stitch markers, tapestry needle, cable needle (cn)

GAUGE

Each block has its own gauge. However, to determine
which sizes to use for your smaller and larger size
needles, use the ball band gauges for Vintage:

Gauge #1: 20 sts and 27 rows = 4" / 10 cm in St st using
smaller needle

Gauge #2: 18 sts and 24 rows = 4" / 10 cm in St st using
larger needle

*Gauge is measured after blocking. To save time and ensure
accurate measurements, take time to check gauge.*

NOTE

Minor variations in block size—within about 1" / 2.5 cm
in either direction—are okay. Once the blocks are all
sewn together, these differences won't be noticeable.

SKILLS USED

Mattress stitch, picking up stitches, knit stitch, binding off.

Kfb: knit in the front and back of the next st (1 st increased).

SEAMING

Use tapestry needle and yarn to sew blocks together as shown in the diagram. Assemble each row using mattress stitch, then sew the completed rows together in the same manner, taking care to match block edges.

It can be helpful to pin squares together using removable stitch markers to keep your seams even, especially when seaming squares worked over different numbers of stitches.
